CAREER OBJECTIVE

To secure an entry-level position in the IT industry where I can apply my programming, web development, and analytical skills to develop innovative solutions while continuously learning and contributing to organizational growth.

INTERN EXPERIENCE

Web Design Intern **[June 2024]**
Frontline Technologies
I worked on full-stack web development projects using technologies like HTML, CSS, JavaScript, MySQL, and MongoDB. I contributed to building and optimizing web applications, enhancing performance and user experience.

EDUCATION

BE in Computer Science and Engineering 2023 – 2027
Kongunadu College of Engineering and Technology, Trichy
GCPA:8.11/10.00

Class XII - Examination Score: 78.6% 2022 – 2023
Little Angels Matriculation Higher Secondary School, Namakkal

TECHNICAL SKILLS

- Java Programming
- HTML, CSS
- Node.js,Express.js
- MongoDB
- Git and Github
- JavaScript Programming
- MySql

SOFT SKILLS

- Quick Learner
- Adaptability
- Teamwork
- Time Management

ACADEMIC PROJECTS

Farm2Home-Empowering Farmers and Enriching Consumers:

Developed a Farm-to-Consumer platform that connects farmers directly with consumers, enabling fair pricing and seamless online transactions while eliminating intermediaries. Integrated features such as Tamil voice input, real-time weather updates, secure user authentication, digital payments, and order management to improve accessibility and user convenience. Designed a scalable and user-friendly solution that promotes transparency, enhances the agricultural supply chain, empowers farmers with better market access, and ensures a reliable shopping experience for consumers.

Hostel Maintenance Complaint & Billing Portal:

Developed a comprehensive hostel management system to streamline complaint registration, room maintenance, billing, and payment processes for efficient hostel administration. Integrated secure user authentication, role-based access, complaint tracking, real-time notifications, payment management, and automated report generation to improve transparency and operational efficiency. Designed a centralized and scalable solution that enables students to raise and track complaints, simplifies administrative tasks, reduces manual effort, and ensures a seamless and reliable user experience.

CO-CURRICULAR CERTIFICATIONS

- Participated in technical events at other colleges and won prizes.
- Attended workshops and seminars at various colleges to enhance technical knowledge.
- Took part in hackathons and coding competitions organized in college.
- Participated in Paper Presentation at Kongu Engineering College.
- Attended seminars and webinars on emerging technologies and software development.

HACKATHONS

- Participated in Neurathon, a national-level hackathon conducted by New Prince Shri Bhavani College of Engineering and Technology, collaborating to develop innovative technology-based solutions.
- Participated in HackFest, organized by Selvam College of Technology, gaining hands-on experience in problem-solving, teamwork, and rapid application development.
- Participated in Genesis, an intra-college hackathon, where I designed and developed innovative software solutions under time constraints.

CERTIFICATIONS & BADGES

- Completed a Value-Added Course in Core Java and Python offered by the college.
- Obtained NPTEL Certifications in Introduction to Internet of Things (IoT), Software Testing, and Introduction to Machine Learning.
- Completed English and Tamil Typewriting – Junior and Senior Grade Certifications.
- Completed a Full Stack Development Certification.
