BE - COMPUTER SCIENCE AND ENGINEERING

Namakkal, Tamil Nadu, India | +91 6374793906 | roji3374@gmail.com | LinkedIn: linkedin.com/in/rojitha-n-r-a0b994325

CAREER OBJECTIVE

A passionate Computer Science student looking for an opportunity to apply academic knowledge and project experience in real-world applications, enhance technical skills, and grow as a responsible professional.

TECHNICAL & SOFT SKILLS

Programming Languages
Java

Web Technologies:
HTML, CSS, JavaScript

Databases & Tools:
VS Code,MongoDB .

Soft Skills:
Communication, Teamwork, Problem Solving, Leadership,Time Management.

EDUCATION

Bachelor of Engineering (B.E) in Computer Science Engineering
Kongunadu College of Engineering and Technology, Trichy — ***CGPA: 8.08 / 10***

Higher Secondary Education (Class XII)
Namakkal Kongu Matric Higher Secondary School, Namakkal — ***Percentage: 75%***
Year: 2023

Secondary Education (Class X)
Maruthi Viddyalaya Matriculation School, Namakkal.
Year: 2021

INTERNSHIPS

Full Stack Web Development Intern
ILife Technologies — Role: Web Developer Intern (HTML, CSS, JavaScript)
Duration: 2 Weeks

- Developed responsive web pages using HTML,CSS and Javascript.
- Connected web applications with a database to store and retrieve data.
- Worked on both frontend and backend to build complete web applications.

Artificial Intelligence and Machine Learning Intern
ViWise Technologies — Role:AIML intern
Duration: 3 Weeks

- Developed and trained Machine Learning models.
- Performed data preprocessing and model evaluation..
- Collaborated with the team to develop and optimize AI/ML applications

MEMBERSHIP

- CSI
- Science Club
- Multi Media

ACADEMIC PROJECTS

Advanced Energy Monitoring System

Technologies: Arduino, Current Sensor, HTML, CSS, JavaScript

Role: IOT Developer

- Developed an IoT-based smart energy monitoring system.
- Monitored real-time energy consumption using sensors.
- Designed a dashboard to display energy usage data.
- Improved energy efficiency through smart monitoring.

Food Court Management System

Technologies: HTML, CSS, JavaScript, MongoDB ,PHP

Role: Full Stack Developer

- Developed a web- processing based Food Court Management System.
- Designed a responsive user interface for customers and administrators.
- Implemented menu management, order, and billing features.
- Integrated database for storing user, order, and menu details.

CERTIFICATIONS

- **Data Analytics with Python**– NPTEL
- **Software Testing** – NPTEL
- **Introduction to Machine Learning**– NPTEL
- **Internet of Things**– NPTEL
- **Cyber Security**– Value Added Course

ACHIEVEMENTS & ACTIVITIES

- **TamilNadu Wise** Women Hackathon awarded a **₹10,000** cash prize.
- Won **1st prize** in speech competition.
- Received Internship opportunity in **TANCAM**.
- Presented innovative projects solution in **National and State level hackathon.**

AREA OF INTEREST

- Software Development
- Machine Learning
- Web Development

TECHNICAL EXPOSURE

Hackathon and Competitions

- TamilNadu(TN) wise Hackathon – Won (₹10,000 Cash Prize) & Selected for Internship.
- YUKTI Innovation Challenge – Qualified for multiple rounds.
- Smart India Hackathon (SIH) – Qualified for multiple rounds.
- MSME Innovation Challenge – Qualified for multiple rounds.
- AMTZ,AMD,EYE Innovation Challenge Hackathon – Qualified for multiple rounds.

Paper Presentations and Workshops

- Presented technical papers and attended hands-on technical workshops.
- Strengthened communication and practical skills.
