JEYANTH PRIYAN B

Software Developer
B.E. in Computer Science & Engineering Kongunadu College of Engineering and Technology, Trichy
Phone: 9344153373
Email: jeyathpriyan@gmail.com
LinkedIn: https://www.linkedin.com/in/jeyanth-priyan-b-599a10325

OBJECTIVE

Dynamic and visionary software developer driven by innovation and excellence. Skilled in Python, machine learning and modern frameworks, with a flair for crafting intelligent, scalable solutions. Passionate about blending creativity with technical precision to daeliver impactful, user-centric applications. Seeking to contribute transformative ideas and cutting-edge solutions to a forward-thinking organisation.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science & Engineering — 2023 – 2027
Kongunadu College of Engineering and Technology, Trichy — CGPA -7.1/10

Secondary Certificate (12th Grade Higher) — 2023
Sri Guru Matriculation Higher Secondary School — 72.7%

SKILLS

Programming Languages: Python, Java

Soft Skills: Problem-Solving, Self-Learning, Technical Documentation, Adaptability.

PROJECTS

TITLE – SMARTCARE BED SYSTEM USING IOT
YEAR - 2024
ROLE – Developed firmware for microcontrollers (Arduino/ESP32/Raspberry Pi) to capture and transmit sensor data reliably.
DESCRIPTION—An innovative healthcare solution designed to enhance patient monitoring and safety. It integrates smart sensors and embedded controllers to capture posture, movement and vital signs with real-time cloud connectivity. The system provides instant alerts and automated bed adjustments to improve comfort, reduce risks, and support faster recovery.

TITLE - PERSONALISED AI-POWERED MEDICAL DIAGNOSTIC COMPANION FOR MEDICAL IMAGING AND PREDICTIVE HEALTHCARE (PADCOM)
YEAR - 2025
ROLE - Implemented deep learning models for medical imaging (X-ray, CT, MRI) to detect anomalies and provide predictive healthcare insights.
DESCRIPTION - It uses deep learning to analyse X-rays, CT scans and MRI images with high accuracy, providing personalised insights and anomaly detection. Through real-time recommendations and predictive analytics, it enhances clinical decision-making and patient safety. A secure cloud platform with an intuitive interface ensures accessibility, making healthcare faster, smarter and more patient-centric.

CERTIFICATIONS

Certifications: GenAI , Full Stack Development .

Value added course : CyberSecurity.

LANGUAGES

English, Hindi, Telugu, Tamil

CO- CURRICULAR ACTIVITIES

WORKSHOPS -

Participated in a workshop on GenAI at Karpagam College of Engineering, Coimbatore.
Participated in a workshop on web development at Dhanalakshmi Srinivasan College of Engineering, Trichy.

PAPER PRESENTATION -

Brain Tumour that was presented in Kongu Engineering College, Erode.
AI techniques that were presented at Karpagam College of Engineering, Coimbatore.

HACKATHONS -

Participated and I got shortlisted in VIT BHOPAL HACKATHON on PADCOM
Participated in SMART INDIA HACKATHON on OCEAN HAZARD.
Participated in MSME on SOIL SENSE.
