OBJECTIVE

- To continuously enhance my technical, analytical, and problem-solving skills while contributing effectively to innovative projects and organizational growth. Seeking an entry-level software development role where I can apply my programming and problem-solving skills, contribute to real-world projects, and continuously develop my technical skills.

SKILLS

- **Programming Languages:** Java, (Sql basics)
- **Design Tools**: Canva, VS Code,Github,Git
- **Web Technologies** :HTML, CSS,JavaScript, Bootstrap
- **Database:** MySQL
- **Core Concepts:** OOP,DBMS

EDUCATION

Kongunadu College of Engineering and Technology- **CGPA 7.51**
Malar Matric Higher Secondary School
SSLC –(2020 – 2021)
Malar Matric Higher Secondary School
HSC –(2022- 2023)

PROJECTS

Wearable Fetal Monitoring System

- Developed a system for monitoring fetal heartbeat and uterine contractions.
- Used Doppler ultrasound technology for continuous monitoring.
- Designed the system to detect abnormal readings and provide alerts.

- Focused on improving early detection and monitoring.

A Web Based Donation Management Platform

- Developed a web-based platform connecting donors, NGOs, and beneficiaries.
- Enables donors to upload donation details and images.
- Allows NGOs to verify donations and manage requirements.
- Supports centralized donation management and tracking.

EVENTS & INTERNSHIPS

Full Stack Devolpement(15 Days):

- Learned frontend development using HTML, CSS, JavaScript, and Bootstrap.
- Gained knowledge of backend development and server-side logic.
- Learned database integration and CRUD operations.
- Developed understanding of APIs and web application functionality..

Artificial Intelligence and Machine Learning (15 Days):

- Learned fundamental AI and machine learning concepts.
- Gained exposure to machine learning algorithms and data analysis.
- Practiced basic model building and problem-solving techniques.

CERIFICATIONS

- NPTEL – Internet of Things (IoT)
- NPTEL – Software Testing
- Intenship Completion Certificate-Prompt Infotech / Viwise tech Softwares Private limited.
- Value Added Course- Cyber Security

ACHIEVEMENTS

- Presented a paper on “Smart Dust”, Kongu Engineering College, Erode.
- Participated in various national-level technical symposiums and technical events.

INTERNSHIPS

Ideal Formatic Group of Companies

DESCRIPTION

- Technology-based company.
- Provides internship and training programs.
- Gives practical industry experience.
- Helps students improve technical skills.
- Provides exposure to real-time projects.
- Focuses on software and emerging technologies.

Viwise Tech Software

DESCRIPTION

- Software training and development company based in Trichy.
- Provides technical training and internship programs.
- Offers courses in Java, Python, C, SQL, Web Development, and Full Stack Development.
- Provides practical training through live projects.
- Helps students develop technical and career skills.
- Provides placement and interview training support.
