PROJECTS

GramaClean–Smart Garbage Complaint And Tracking System for Rural Panchayats

Description: GramaClean is a web-based system that helps rural panchayats efficiently manage garbage-related complaints. Villagers can submit issues through a simple online form with details and optional photo evidence, which are stored and tracked in a centralized database. Panchayat officials use a secure admin dashboard to monitor and update complaint statuses in real time with visualized insights. SMS or WhatsApp notifications enhance transparency, enabling faster resolution and improved civic participation.

Education mate AI-assistant

Description: EduMate is an AI-based education assistant that helps teachers and students manage academic activities efficiently. It automates attendance, marks analysis, and academic reporting. The system provides smart insights to improve learning outcomes. EduMate enhances productivity and supports modern, AI-driven education systems.
