HAREINI S

STUDENT

9080187771 ▪ 20.lakshimi nagar,rasipuram,Namakkal ▪ https://www.linkedin.com ▪ hareiniharsa@gmail.com

PROFESSIONAL SUMMARY

Enthusiastic Artificial Intelligence and Data Science student with a strong passion for innovation and problem-solving. Highly motivated to apply analytical thinking and data-driven approaches to real-world challenges. Currently specializing in Honors in [Your Domain Name] with a proven track record in research-oriented internships and IEEE-level academic publications.

EDUCATION

SRV Hi-Tech MATRICULATION HIGHER SECONDARY SCHOOL 2022-2023

Secured 87%inHigherSecondaryCertificateexaminations.

KONGUNADU COLLEGE OF ENGINEERING AND TECHNOLOGY 2023-2027

Currently pursuingB.TechinArtificialIntelligence&DataSciencewith a CGPA of 8.5

TECHNICAL SKILLS

- **Programming Languages:** Python, Java
- **Web & Full Stack Development**: HTML5, CSS3
- Database Management: My SQL
- **Design Tools**:Canva,Figma

SOFT SKILLS

- Analytical & Logical Problem Solving
- Team Collaboration & Leadership
- Adaptability & Continuous Learning
- Technical Documentation & Reporting
- Presentation & Communication Skills

Time Management & Responsibility

INTERNSHIPS

ARTIFIC IAL INTELLIGENCE & CYBERSECURITY – NATIONAL INSTITUTE OF TECHNOLOGY, TIRUCHIRAPPALLI

Duration: 45 Days

Completed a structured research-oriented internship focused on AI and cybersecurity in blockchain environments Analyzed and detected phishing accounts using a unified graph-based approach across Ethereum and Hyperledger blockchain networks Applied machine learning and AI techniques to identify malicious patterns and suspicious account behavior Worked with graph-based data modeling to represent and analyze blockchain transactions and relationships Gained hands-on experience in blockchain security analysis, cybersecurity concepts, and real-world threat detection methodologies

ACADEMIC PROJECTS

- Brain Tumor Prediction: Predicts brain tumor presence using a Convolutional Neural Network (CNN).
- Cancer Prediction: Identifies cancer risk using Logistic Regression. Diabetes Prediction: Predicts diabetes occurrence using Support Vector Machine (SVM).
- Salary Prediction: Estimates salary using Linear Regression.
- Real or Fake News Prediction: Classifies news articles using the Naive Bayes algorithm.
- Alzheimer's Disease Prediction: Predicts Alzheimer's disease using Random Forest.
- AI Pincode Generator: Generates postal PIN codes using a Decision Tree algorithm.
- Phishing Detection in Blockchain: Detects phishing accounts using Graph-based Machine Learning.
- EduMate AI: Provides academic guidance and personalized learning support using a Rule-Based AI system.
- Financial Assistant skilled in managing financial records, supporting budgeting and reporting, and ensuring accuracy and compliance in day-to-day financial operations.

ADDITIONAL TRAINING & ACTIVITIES

- Certified in a 6-day Java training with hands-on coding on HackerRank and LeetCode Completed.
- Certified in a 6-day Machine learning with AI Applications training with hands-on coding on Google colab Completed.
- Certified 3 month Internship training in Generative AI and Agentic AI Completed.

CERTIFICATIONS

NPTEL Certifications

- Introduction to Internet of Things
- Ethical Hacking
- Cybersecurity and Privacy
- Privacy and Security in Online Social Media
- Computer Networks and Internet Protocol

Oracle Certifications

- Oracle AI Vector Search Certified Professional
- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional

ACHIEVEMENT

- Secured Second Prize in a Paper Presentation conducted at KSR College of Engineering.
- Awarded First Prize in a Designing Contest organized by the Vellalar College of Engineering

PAPER PUBLISHED

- Deep Learning-Based Assistive Healthcare System with Context-Aware Personalization for Visually Impaired Patients: A Clinical Validation Study
- AI-Enhanced Telemedicine System for Divyangjan: A Context-Sensitive Framework for Medication Management and Healthcare Accessibility
