OBJECTIVE

Final-year Computer Science Engineering student with a good knowledge of Java, Object-Oriented Programming, DBMS, and problem-solving. Looking for an entry-level Software Developer role where I can use my skills, learn new technologies, and contribute to the growth of the organization.

EDUCATION

B.E – Computer Science and Engineering *2023 – 2027*

Kongunadu College of Engineering and Technology, Namakkal | CGPA: 7.579

Higher Secondary Certificate (HSC) *2022 – 2023*

Government Hr Secondary School | Percentage : 75.3

Secondary School Leaving Certificate (SSLC) *2020 – 2021*

Government Hr Secondary School

TECHNICAL SKILLS

Programming Language	Java, SQL
Core Concepts	Object-Oriented Programming, Data Structures, DBMS, Java Collections Framework
Web Technologies	HTML, CSS, JavaScript
Database	MySQL, SQLite
Tools	Eclipse, VS Code,,Antigravity,,GitHub

PROJECTS

HealthChain – Blockchain-Based Secure Healthcare Management System

Jan 2025 – Apr 2025

Technologies: Python, Flask, MySQL, Blockchain, AES, RSA, SHA-256

- *Developed a secure healthcare management system for storing and managing electronic health records.*
- *Implemented blockchain technology to maintain tamper-resistant and traceable health record transactions.*
- *Applied AES and RSA encryption techniques to protect sensitive patient information.*
- *Used SHA-256 hashing to maintain data integrity and detect unauthorized changes.*
- *Designed role-based access control to ensure that healthcare records are accessible only to authorized users.*
- *Developed a Flask-based web interface for managing patient records and secure data access.*
- *Integrated MySQL database for storing patient details, medical records, and access-related information.*

Smart Expense Tracker – Personal Finance Application

Aug 2024 – Dec 2024

Technologies: HTML, CSS, JavaScript, LocalStorage

- *Developed a web-based application to help users track and manage their daily expenses.*
- *Designed an interactive interface for adding, viewing, and managing income and expense records.*
- *Implemented JavaScript functionality to calculate and display total income, expenses, and balance.*
- *Used browser LocalStorage to securely maintain expense data across sessions.*
- *Designed a simple and user-friendly interface to make personal expense management easier.*

Online Quiz Management SystemApplication ***Aug 2024 – Dec 2024***

Technologies: Python, Flask, SQLite, HTML, CSS

- *Developed a web-based application for conducting and managing online quizzes.*
- *Implemented features for displaying quiz questions, collecting user responses, and calculating scores.*
- *Integrated SQLite database to store quiz questions, user responses, and results.*
- *Developed Flask-based Principles of Generative AI Certification – Infosys Springboardbackend functionality to manage quiz flow and result processing.*
- *Designed a simple and user-friendly interface using HTML and CSS.*

INTERNSHIPS

Full Stack Web Development – Training/Internship Program ***May 2024 – Jun 2024***

Isquare Data Systems Private Limited

- Completed hands-on training in full-stack web development concepts.
- Developed interactive user interface components and worked with backend form handling.
- Gained practical exposure to integrating frontend and backend components in web applications.

CERTIFICATIONS

- **Java Training along with Hacker rank and Leet code exposure (Yellowmatics.ai):** Gained lot of confidence towards logical programming ,DS and advanced algorithms. Sep 2024
- **Build Python Web Applications Using Django S Flask (VAC):** Completed a value added course on Python web development using Django and Flask. Dec 2024
- **Principles of Generative AI Certification** – Infosys Springboard
- **HTML Training** – Spoken Tutorial, IIT Bombay | Score: 82.50%
- **JavaScript Training** – Spoken Tutorial, IIT Bombay | Score: 70.00%

ACHIEVEMENTS & ACTIVITIES

- **Paper Presentation (3rd Place)** - Knowledge Institute of Technology, Salem. Feb 2025
- Presented technical papers at inter-college symposiums.
- Participated in AI and web development focused hackathons.
- Organized department technical events by coordinating activities and participant communication.

AREAS OF INTEREST

- Software Development
- Java Programming
- Database Management Systems
- Web Development
