PROFESSIONAL SUMMARY

To begin my career in a reputed organization where I can apply my technical skills, contribute to innovative projects, continuously learn from experienced professionals, and grow both personally and professionally.

EDUCATION

Kongunadu College of Engineering and Technology — Namakkal, TN
B.E. – Computer Science and Engineering CGPA: 8.3 — Sept 2023 – Present

Kurinji Senior Secondary School
Higher Secondary Education 88% — June 2022 – May 2023

INTERNSHIP EXPERIENCE

Data Science Intern | Way2Skills, Trichy — Nov 2025 – Dec 2025 (2 Months)

- Assisted in data collection, cleaning, and preprocessing for analysis tasks.
- Collaborated with the team on data visualization and project documentation.
- Enhanced Python, SQL, and analytical problem-solving skills through practical assignments.

UI/UX Intern | FutoGen Technologies Private Limited, Salem — June 2025 (15 Days)

- Assisted in designing user interfaces, wireframes, and interactive prototypes using Figma.
- Collaborated with team members on UI/UX design tasks, user flows, and design documentation.
- Strengthened user-centered design, prototyping, and problem-solving skills through practical projects.

PROJECTS

IoT Smart Medicine Reminder System | ESP32, RFID, Flutter, Firebase

- Developed an RFID-based Smart Medicine Reminder system using Flutter, ESP32, and Firebase Firestore.
- Implemented medicine scheduling, RFID authentication, and real-time dose tracking.
- Automated missed-dose alerts to improve medication adherence in hospital environments.

EMO Music Player for Car Stereo System | MediaPipe, Flask, OpenCV, Keras

- Developed an AI-based music player that detects the driver's facial emotion in real time using MediaPipe, Keras, and OpenCV.
- Researched, tested, and optimized the emotion recognition model by evaluating accuracy under different lighting and face orientations.
- Integrated emotion-to-music mapping with automatic playlist updates using Python, Flask, and REST APIs.

TECHNICAL SKILLS

Languages: Java, Python, SQL
Web Technologies: HTML, CSS
Automation: Robotic Process Automation (RPA), Workflow Design, Process Automation, UiPath Studio
Tools: Git, GitHub, VS Code

CERTIFICATIONS & ACHIEVEMENTS

- Presented a paper on "Smart Medicine Reminder System" at a National Level Symposium.
- Participated in an intra-college hackathon, gaining hands-on experience in collaborative problem-solving.
- NPTEL – Software Testing
- Core Java
- Django for Web Development
