+91-9025771290 Trichy, Tamil Nadu

OBJECTIVE

Enthusiastic aspiring Computer Science and Engineering professional with a strong passion for software development, problem-solving, and emerging technologies, eager to apply my technical skills, contribute to innovative projects, and continuously grow in the IT industry.

EDUCATION

B.E,Computer Science And Engineering — 2023 – Present
KONGUNADU COLLEGE OF ENGINEERING AND TECHNOLOGY — Thottiyam
7.0 CGPA

HSC, GOVT HR SEC SCHOOL — 2022 – 2023
66% — Kattuputhur

SSLC,GOVT HR SEC SCHOOL — 2020 – 2021
100% — Kattuputhur

TECHNICAL SKILLS

- **Programming Languages:** JAVA, HTML,CSS
- **Operating Systems:** Windows
- **Database Management:** MySQL, Mngo DB
- **Tools:** Git, GitHub, VS Code, Antigravity, Eclipse
- **Web Technologies:** HTML, CSS, JavaScript
- **AI/ML Techniques:** Deep Learning

PROJECTS

AI-Powered User Monitoring and Anomaly Detection Tool

Technologies: Python, Flask, Machine Learning, HTML, CSS, JavaScript

- Developed an AI-powered application to monitor user activities and detect anomalous behavior using machine learning techniques.
- Implemented real-time anomaly detection with automated email alerts to enhance system security and enable rapid threat.
- Designed a user-friendly web interface using Flask, HTML, CSS, and JavaScript for activity monitoring, alert management, and system interaction.

An Intelligent System for Early Leak Prediction and Risk Localization in Urban Water Pipelines

Technologies: Python, Machine Learning, Flask, HTML, CSS, JavaScript
Role: Full-Stack Developer

- Developed a machine learning-based system for early leak detection and risk localization in urban water distribution networks.
- Implemented real-time monitoring and predictive analytics to identify potential pipeline leaks and support preventive maintenance.
- Designed and developed a responsive web interface for visualizing pipeline status, leak predictions, and risk locations.
- Integrated the frontend with the backend to enable seamless data processing, prediction generation, and efficient water resource management.

❖ INTERNSHIPS

UI/UX Intern, Futogen Technologies Pvt. Ltd. 02/2025

- Successfully completed a 14-day hands-on training program in UI/UX Design, gaining practical knowledge of user-centered design principles and interface development.
- Designed user-friendly wireframes, prototypes, and responsive interfaces while learning industry-standard UI/UX design practices and improving user experience.

🎗 CERTIFICATION

Paper Presentations & Workshops

- Presented a paper titled **"VR Thermal Scanner"** at the National-Level **INNO BLITZ Hackathon** conducted by **Sri Ramakrishna College of Engineering, Coimbatore**.
- Participated in a workshop on **"Virtual Reality Assisted Structural Health Monitoring and Inspection Using Drones"** conducted by **Erode Sengunthar Engineering College**.

Value Added Course

- **Java Programming –** Value Added Course, Kongunadu College of Engineering and Technology.
- **Mongo DB –** Value Added Course, Kongunadu College of Engineering and Technology.

★ HACKATHON

- **Got Selected In HACK $DAY Pondy Edition 1**, showcasing innovation, problem-solving, and technical development skills.
- **Selected As a Finalist In AI- Hackathon by DAKSH Sastra,** learn about the inovatin ideas and self improvement.

★ EXTRA-CURRICULAR ACTIVITIES

- Know about the Gaming Tech
- Volunteer for technical and college events
- Web desining using AI tools

★ AREAS OF INTEREST

- Computer Networking
- Deep Learning
- Full-Stack Web Development
- Gaming Technology

❖ OTHERS

- **NPTEL:** Introduction to Internet of Things (Jul–Oct 2024)
- **NPTEL:** Software Testing (Jul–Oct 2025)
