PROFESSIONAL SUMMARY

To begin my career in a reputed organization where I can apply my technical knowledge, learn from experienced professionals, contribute to impactful technology solutions, and grow into a skilled software developer with leadership capabilities.

EDUCATION

Kongunadu College of Engineering and Technology *Sept 2023 – Present*
B.E – Computer Science and Engineering *CGPA: 8.1*

Chellammal Matric. Hr. Sec School *June 2021 – May 2023*
Higher Secondary Education *90%*

INTERNSHIP EXPERIENCE

Generative AI Intern | ***Zoro Tech, Kanyakumari*** Nov 2025 – Dec 2025 (1 Month)

- Gained practical exposure to Generative AI concepts, AI-powered applications, and real-world implementation approaches.
- Worked with AI tools and explored prompt engineering techniques to improve AI-based solutions.
- Learned the application of Large Language Models and automation techniques in solving real-world problems.

Data Science Intern | ***Speculation Infotech, Trichy*** Jun 2025 – Jul 2025 (1 Month)

- Gained exposure to data analysis processes, handling datasets, and technology-driven solutions.
- Developed understanding of real-world problem-solving approaches and analytical techniques.
- Learned basic data preprocessing, visualization methods, and extracting meaningful insights from data.

PROJECTS

Health Awareness Nutrition Monitoring System — *Flutter | FireBase*

- Identified the lack of awareness about nutrition and healthy lifestyle practices.
- Developed a Flutter and Firebase application for personalized nutrition tracking and health monitoring.
- Helped users make healthier lifestyle choices through easy access to nutrition insights**.**
- Enabled users to track daily nutrition details and monitor their health progress effectively**.**

Automated Form Filling System — *UiPath*

- Built a UiPath RPA workflow to automate end-to-end web form filling using data extracted from Excel files.
- Used UiPath activities for data scraping, field mapping, validation, and exception handling to ensure accurate submissions.
- Reduced manual data-entry time and errors, demonstrating practical RPA development and process automation skills**.**

TECHNICAL SKILLS

Languages: Java
Web Development: HTML, CSS
Databases: MySQL
Tools: Git, GitHub, Firebase, UiPath Studio
Automation: Robotic Process Automation , Workflow Design, Form Automation

CERTIFICATIONS & ACHIEVEMENTS

- Participated in an intra-college hackathon, gaining hands-on experience in collaborative problem-solving.
- Presented a technical paper on " Evaluation of Graphic Card ".
- NPTEL – Machine Learning & Data Analytics with Python.
- Core Java
- Django for Web Development
- Secured positions continuously for the past two years in the Anna University Zonal Level Handball Tournament.
