SUMMARY

Computer Science Engineering student skilled in Java, Data Structures Algorithms, SQL, and Full Stack Development, with practical experience in developing AI-based and web applications. Strong analytical and problem-solving abilities with a keen interest in software engineering. Looking to contribute to innovative projects while expanding technical expertise.

EDUCATION

Kongunadu College of Engineering and Technology 2023 – 2027
Bachelor of Engineering in Computer Science and Engineering CGPA: 9.16

Sowdambikaa Matric Higher Secondary School 2022 – 2023
Higher Secondary Certificate Percentage: 91.3%

TECHNICAL SKILLS

Programming Languages: Java, Python
Web Technologies: HTML, CSS, JavaScript
Database: MySQL, PostgreSQL
Core Subjects: Data Structures and Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks
Developer Tools: Git, VS Code, ChatGPT, Arduino IDE, Jupyter Notebook
Technologies: Artificial Intelligence, Machine Learning, TinyML

INTERNSHIP

Astonish Infotech Pvt. Ltd.
Full Stack Development Intern

- Developed responsive and user-friendly web pages using HTML, CSS, and JavaScript.
- Worked with backend technologies and databases to build and maintain web applications.
- Participated in debugging, testing, and performance optimization to improve application reliability.
- Collaborated with the development team to implement features and resolve technical issues.
- Gained hands-on experience with industry-standard software development practices and version control workflows.

PROJECTS

AI-Based Deforestation Detection Using Satellite Imagery | *Python, OpenCV, TensorFlow, Flask, PostgreSQL*

- Developed an AI-based system to detect deforestation from satellite imagery using Machine Learning and Computer Vision techniques.
- Applied TensorFlow and OpenCV for image classification to identify forest cover changes.
- Built a Flask web application for real-time prediction and visualization.
- Integrated PostgreSQL to store prediction history and improve data management.
- Enhanced environmental monitoring through automated forest change detection.

AI-Based Smart Farming System | *Python, Flask, Machine Learning, OpenCV, PostgreSQL*

- **Role:** AI/ML & Backend Developer
- Developed an AI-powered smart farming system to analyze soil and crop conditions.
- Applied Machine Learning and OpenCV for land analysis and crop recommendation.
- Built a Flask web application with PostgreSQL for real-time prediction and data management.
- Improved agricultural productivity through intelligent data-driven recommendations.

Real-Time Human Fall Detection Using TinyML and Edge Computing | *TinyML, ESP32, TensorFlow Lite Micro*

- **Role:** TinyML & Embedded Systems Developer
- Published in the **International Journal of Science, Engineering and Technology (2026)**.
- Developed a privacy-preserving human fall detection system using TinyML, acoustic sensing, and MFCC feature extraction.
- Implemented TensorFlow Lite Micro on ESP32 for low-latency edge inference, eliminating cloud dependency and enhancing user privacy.

HACKATHONS ACHIEVEMENTS

- Academic Excellence Consistently secured a top rank in the CSE Department throughout the academic semesters.
- Inter-College Quiz Competition Secured 2nd Prize in an inter-college quiz competition.
- Multiverse Hackathon 2K26 Participated in a 24-hour hackathon, collaborating with a team to develop an innovative solution.
- HACKS DAY Edition 1, Pondy Participated in a 42-hour hackathon focused on innovation and problem-solving.
- Smart India Hackathon (SIH) Participated in the Inter-College Level Hackathon.
- Japanese Language Proficiency Test (JLPT) - N5

CERTIFICATIONS

- Complete Java Programming Bootcamp: Learn to Code in Java - Udemy
- Mastering Complexity in Problem Solving and Decision Making - Udemy
- Introduction to Modern AI - Cisco Networking Academy
- Japanese Language Proficiency Test (JLPT) - N5

AREA OF INTEREST

- Full Stack Web Development
- Artificial Intelligence and Machine Learning
- Software Development
- Python and Flask Application Development

LANGUAGES

- Tamil
- English
- Japanese (N5 Certification)
