PROFILE

Motivated and enthusiastic B.Tech Information Technology student with a passion for Java programming and software development. I enjoy learning new technologies, solving problems, and building practical projects that strengthen my technical skills. I am seeking an opportunity to start my career in a reputed organization where I can contribute, continue learning, and grow as a software developer.

PROJECTS

SOFTWARE

Hand Gesture Recognition for Sign Language Interpretation.

- Designed a hand gesture recognition system for the purpose of interpreting sign language.
- Utilized image processing techniques to recognize and classify the hand gestures.
- Increased the accessibility of communication by translating the gestures to text.

HARDWARE

Smart Railway Track Obstacle Monitoring harware System with Intent Based Risk Classification.

- Designed a smart obstacle detection system for monitoring railway tracks in real time.
- Implemented an intent- based risk classification to determine potential hazards.

INTERNSHIP

Cyber Security Intern
Prompt Infotech,Coimbatore.

- Successfully completed a 15-day internship in Cyber Security.
- Gained practical exposure to cybersecurity concepts, vulnerability assessment, and security best practices.

ACHIEVEMENTS

- Participated in Hackathon conducted by VIT Bhopal University, Madhya Pradesh.
- Participated in Hackathon conducted by SRI ESHWAR College of Engineering, Coimbatore.
- Presented a paper on Anomaly Detection
- Participated in Technical Workshops
