SUMMARY

Computer Science Engineering student with hands-on experience building full-stack web applications, focused on front-end development using HTML, CSS, and JavaScript. Strong foundation in Java, SQL, and problem-solving, with practical exposure through the projects, responsive UI design, and database-driven applications. Seeking a Software Developer role to apply and grow these skills in a professional environment.

SKILLS

Programming Languages: Core Java
Web Technologies: HTML, CSS, JavaScript
Database: SQL, MySQL
Tools: VS Code, Eclipse, Canva
Soft Skills: Problem Solving, Teamwork, Communication, Time Management

PROJECT

MediPost — AI-Enabled Medicine Donation Platform

Java, MySQL, HTML, CSS, JavaScript, OCR

- Built responsive front-end pages for donor registration, login, and medicine donation workflows using HTML, CSS, and JavaScript.
- Designed user-facing forms to capture and validate medicine details extracted via OCR, reducing manual data entry for donors.
- Collaborated on integrating front-end views with a Java and MySQL backend to manage user and medicine donation records end-to-end.
- Implemented UI logic to display expiry-date verification results, improving donor confidence in submission accuracy.

SkillBridge — AI-Enabled Skill Exchange Platform

Java, MySQL, HTML, CSS, JavaScript

- Developed front-end pages for user registration, profile management, and skill tracking with a focus on clean, usable layouts.
- Built interactive UI components using JavaScript to let users add, edit, and track skills in real time.
- Worked with backend developers to connect front-end pages to Java/MySQL data for user and skill records.

INTERNSHIP

Web Development Intern — E-Soft IT Solutions

- Developed responsive web pages using HTML and CSS, applying front-end fundamentals to real project requirements.
- Built user-friendly interfaces and improved page functionality based on usability feedback.
- Gained practical exposure to the end-to-end software development process, from design to deployment.

EDUCATION

B.E., Computer Science and Engineering — Kongunadu College of Engineering and Technology, Trichy
CGPA: 8.3 | 2023 – 2027

Higher Secondary Education (HSC) — Krishnasamy Memorial Matric Higher Secondary School, Cuddalore
Percentage: 91% | 2022 – 2023

Secondary School Education (SSLC) — Krishnasamy Memorial Matric Higher Secondary School, Cuddalore
Percentage: Pass | 2020 – 2021

CERTIFICATIONS

- Core Java — Value Added Course
- Introduction to Machine Learning — NPTEL (Elite)
- Software Testing — NPTEL
- IOT — NPTEL

ACHIEVEMENTS & MEMBERSHIPS

- Secured 1st Prize in a Technical Presentation on "Waste Water Management" at Bannari Amman Institute of Technology.
- Member:
  - Computer Society of India (CSI),
  - Multi Media Club,
  - ISTE
