Career Objective

Enthusiastic and dedicated fresher looking for an entry-level role to leverage my academic knowledge, develop practical skills, and add value to the organization.

Skills

Core Skills

- Embedded Systems,Internet of Things (IoT),Verilog HDL,digital electronics

Tools and Platforms

- Arduino, ESP32, Sensors,Proteus Simulation, Circuit Design

Education

B.E Electronic and communication Engineering (2023-2027)
KSR Institute for Engineering and Technology, Tiruchengode. CGPA: 7.3
(Till 5th Semester)

Higher Secondary School
Global matriculation higher secondary school percentage 67% [2023]

Secondary School
Global matriculation higher secondary school [2020]

Pro jects

Smart Irrigation System using IoT
Designed and developed an IoT-based smart irrigation system that monitors soil moisture levels and automatically controls water supply to crops, improving water efficiency and reducing manual intervention.

Automatic Number Plate Detection System:
Developed a system for detecting and recognizing vehicle number plates using image processing techniques, enabling automated identification for security and traffic management applications.

Achievements & Certifications

VLSI Design & Functional Verification
– Designed RTL modules using Verilog HDL and validated functionality through simulation – Performed functional verification using Verilog and UVM methodologies with testbench development
Completed a course on Embedded Systems and IoT, gaining knowledge in microcontrollers, sensors, and real-time data communication.
Acquired proficiency in Verilog and SystemVerilog for digital design and hardware description modeling.

Internship

Java Programming Workshop – Live Stream Technology, Coimbatore
- Attendedahands-onworkshop coveringcoreJavaconceptsandapplicationdevelopmentbasics
- Gained understanding of object-oriented programming principles and real-time use cases

Data Analytics Training – KIO Tech, Erode
- Completed training on data analytics fundamentals including data processing and visualization
- Learned basic analytical techniques and tools for interpreting data-driven insights
