SANTHU S

Software Development Engineer

Namakkal | 8870042233 | santhusukumar18@gmail.com | linkedin.com/in/santhu-s-abb93332b

SUMMARY

Computer Science Engineering student (2027 graduating batch) with a strong foundation in Data Structures and Algorithms, Core Java, and C, and practical experience building complete web applications from front end to back end. Skilled in designing scalable software solutions, with problem solving experience gained through hackathon events and academic projects. Comfortable working in Agile development environments. Seeking a Software Development Engineer Internship to apply strong programming and problem solving skills on real world projects.

EDUCATION

Bachelor of Engineering in Computer Science, Kongunadu College of Engineering and Technology, Namakkal

- **CGPA**: 8.02 2023 - 2027

HSC, Green Park Matric Higher Secondary School, Namakkal 2022 - 2023

- HSC: 79.8%

SSLC, Green Park Matric Higher Secondary School, Namakkal 2020 - 2021

- SSLC: Pass

INTERNSHIP

Artificial Intelligence and Machine Learning — Viwise Tech Softwares

- Developed foundational AI/ML skills using Python and popular ML libraries.
- Worked on data analysis, preprocessing, visualization, and machine learning workflows.
- Built and evaluated basic machine learning models using Scikit-learn and TensorFlow.

TECHNICAL SKILLS

- **Programming Languages:** Core Java, C, Python
- **Core Concepts:** Object-Oriented Programming (OOPs), Data Structures and Algorithms
- **Web Technologies:** HTML, CSS, JavaScript
- **Database:** MySQL
- **Soft Skills:** Team Collaboration, Communication, Problem Solving, Time Management

PROJECTS

Health And Care Support System Using Volunteer Networks — Frontend Developer

- Developed a full-stack, scalable healthcare support platform using Java, MySQL, HTML, CSS, and JavaScript.
- Implemented user authentication, service requests, and volunteer task management modules.
- Designed a responsive user interface to improve overall user experience.

Shadow ID: Exposing Hidden Fake Profiles Online — Frontend Developer

- Designed and developed a responsive user interface using HTML, CSS, and JavaScript.
- Built interactive pages and a dashboard for profile verification and analysis.
- Optimized the website for mobile devices, enhancing overall usability.

HACKATHON EXPERIENCE

- Developed a Virtual Health Assistant web application during the VIT Bhopal Health Hackathon, enabling doctor appointment booking and virtual consultations under time-constrained, Agile-style delivery.

CERTIFICATIONS

- Value Added Course in Core Java
- Prompt Engineering — Infosys SpringBoard

ACHIEVEMENTS & EXTRACURRICULAR ACTIVITIES

- Won First Prize in Paper Presentation (PPT) on Waste Water Management at Bannari Amman Institute of Technology.
- Participated in a Paper Presentation on Artificial Intelligence at Kongu Engineering College.
