Career Objective

Motivated and enthusiastic Information Technology student seeking an opportunity as a Software Developer to apply my programming, problem-solving, and technical skills in developing innovative software solutions while continuously enhancing my professional expertise.

Education

- **Bachelor of Technology (B.Tech.) – Information Technology**
  Kongunadu College of Engineering and Technology, Thottiyam, Tiruchirappalli
  CGPA: **6.9/10** Expected Graduation: **2027**

- **Higher Secondary Certificate (HSC)**
  R.V.B. Matric Higher Secondary School, Thuraiyur
  Percentage: **80%**

- **Secondary School Leaving Certificate (SSLC)**
  R.V.B. Matric Higher Secondary School, Thuraiyur

Technical Skills

- **Programming Languages:** Java, Python, SQL
- **Frontend Technologies:** HTML, CSS
- **Backend Technologies:** Core Java, Servlets
- **Databases:** MySQL, MongoDB
- **Tools:** Eclipse, GitHub

Internship

Cybersecurity Intern Prompt Infotech, Coimbatore

- Gained practical exposure to cybersecurity concepts, threats, and defense mechanisms.
- Learned network security fundamentals, vulnerability assessment, and risk management.

Academic Projects

1. Smart Home Automation System

- Developed an IoT-based smart home automation system for controlling home appliances remotely.
- Integrated sensors and wireless communication technologies for real-time monitoring.

2. AI-Based Accident Zone Prediction and Risk Mapping

- Developed an AI-driven system to identify accident-prone zones using historical accident data.
- Applied machine learning concepts for accident prediction and risk analysis.
- Generated risk maps to support road safety improvements.

Hackathons

AI-Based Public Threat Analysis

- Participated in developing an AI-powered public threat analysis system.
- Utilized machine learning techniques to analyze public data and identify potential threats.

AI-Based Mobile Number Validation and WhatsApp Verification

- Developed an AI-assisted solution for validating mobile numbers and verifying WhatsApp account availability.
- Improved data accuracy through automated verification workflows.

Achievements

- Smart India Hackathon (SIH) 2024 Participant.
- Developed AI-Based Mobile Number Validation and WhatsApp Verification solution.
- Demonstrated teamwork, innovation, and problem-solving through hackathon participation.

Certifications

- Python Programming Certification
- Java Programming Certification
- NPTEL – Internet of Things (IoT)
- Cisco – Introduction to Cybersecurity

Areas of Interest

- **Software Development** – Designing, developing, testing, and maintaining software applications.
- **Cyber Security** – Protecting systems, networks, and data from cyber threats and attacks.

Strengths

- Quick Learner
- Problem Solving Skills
- Teamwork and Collaboration
- Adaptability
