Skill set

- java Programming
- python
- SQL
- PowerBI

Education

Mca - computer applications
Kongu Engineering College
cgpa-7.84% (2024-2026)

BSC-Information systems
Kongu Engineering College
cgpa-7.33% (2021-2024)

HSC
Global metric higher school
76.91% (2020-2021)

SSLC
Global metric higher school
64% (2018-2019)

Leadership

UG-Class representative In 5th semester Placement coordinator in 6th semester.

PG-Placement coordinator since 1st semester, Mobilization coordinator for orion event

Carrer Objective

Knowledgeable in Python, SQL and PowerBI with the ability to analyze data and contribute to business growth through continuous learning and dedication.

Area of interest

Database management system

Project

“ Supermarket Sales Dashboard”

Built an interactive Power BI dashboard to analyze sales performance, product trends, and customer insights using KPI cards, charts, and slicers. Utilized DAX measures to track key business metrics and support data-driven decision-making.

" Centralized activity registration system "

Developed a Centralized Activity Registration System in Android Studio (Java) with Firebase for MCA students. Features include secure authentication, event registration with admin approval, real-time database updates, and attendance tracking. Admins manage event links, approve/reject requests.

" Kadaieswara billing system "

Developed a Kadaieswara Billing System using the MERN stack to manage stitching work, stock, and billing. It includes inward entry, inventory management, stitching updates, bill generation and reports with a centralized admin dashboard.

Certifications

Completed a Data Analytics course at Accord Info Matrix (2026).

Achievements

My greatest achievement is that I have done a world record in Hindustan college . The record is for printing the national flag by palm .

Awarded Best Placement Coordinator – MCA Department, Kongu engineering college (2025-2026)
