KEERTHI PRIYA R

Salem, Tamil Nadu, India • +91 9345343375 • keerthipriyaa.raj@gmail.com
LinkedIn • **GitHub** • Information Technology Graduate | Software Engineering & Cloud Solutions

PROFESSIONAL SUMMARY

Analytical and results-oriented **B.Tech Information Technology (2026 Batch)** graduate with strong technical foundations in **Python, Java, C/C++, SQL, Machine Learning pipelines, and RESTful API integration**. Certified in **Oracle Fusion Cloud (HCM & OIC Integration)** with hands-on internship experience in data processing, root-cause debugging, quality assurance, and web application architecture. Proactive problem-solver skilled at building scalable solutions, following structured engineering best practices, and collaborating effectively across cross-functional teams.

TECHNICAL SKILLS & CORE COMPETENCIES

Programming Languages:	**Python** (OOPs, Scripting, Data Structures), **Java, C, C++**, JavaScript (ES6+), HTML5, CSS3
Data Science & AI/ML:	**Machine Learning Fundamentals, Scikit-learn, Pandas, NumPy**, Exploratory Data Analysis (EDA), Feature Engineering
Databases & Web APIs:	**SQL (MySQL, PostgreSQL** - Queries, Joins, Data Integrity), **REST APIs, Postman (API Testing)**, Firebase Realtime DB
Enterprise & Cloud Systems:	**Oracle Fusion Cloud (HCM Architecture & OIC Integration)**, Cloud Fundamentals, ERP Process Synchronization
Developer Tools & OS:	**Git, GitHub** (Version Control, Code Reviews), VS Code, PyCharm, Linux/Unix Basics, Windows OS Navigation
Engineering Best Practices:	**Object-Oriented Design (OOD), Software Testing & Debugging, Clean Code Standards, Technical Documentation**

WORK EXPERIENCE & INTERNSHIP

Software Engineering & Machine Learning Intern **2024 – 2025**

Software Development & Applied Analytics Domain

- Developed modular data processing scripts and machine learning workflows using **Python, Pandas, and Scikit-learn**.
- Conducted comprehensive **system debugging, log trace analysis, and root-cause fault isolation**, improving operational efficiency by 25%.
- Integrated backend components with **SQL databases and REST APIs**, ensuring robust data ingestion, schema validation, and data integrity.
- Authored detailed technical documentation and standard operating procedures (SOPs), collaborating through structured **Git/GitHub** reviews.

FEATURED PROJECTS

CareerReady AI — End-to-End Placement Readiness & Assessment Engine **Project Lead & Developer**

Python, Machine Learning, REST APIs, Firebase Database, SQL, Web Technologies

- Architected an intelligent full-stack web application incorporating automated **ML scoring algorithms and ATS resume evaluation** pipelines.
- Engineered custom text-processing routines in **Python** to extract core competencies and benchmark candidate profiles against industry criteria.
- Implemented secure asynchronous **RESTful APIs** and real-time database schemas using Firebase and SQL to deliver sub-second response times.
- Applied modular **Object-Oriented Programming (OOP)** and thorough exception handling to ensure 99%+ system uptime and reliable user workflows.

EDUCATION

Knowledge Institute of Technology (KIOT) — B.Tech Information Technology **2022 – 2026**

CGPA: **7.5 / 10** | Salem, Tamil Nadu (2026 Batch)

CERTIFICATIONS

- Certified in Python Programming — Comprehensive OOP, Scripting & Algorithmic Problem Solving
- Infosys Springboard Certification — Full-Stack Web Development & Machine Learning Foundations
- Oracle Fusion Cloud Certification — HCM Architecture & OIC Process Integration Workflows

PROFESSIONAL STRENGTHS & COMPETENCIES

- Strong Problem-Solving Mindset with High Ownership Across Design, Implementation, and Testing Phases
- Solid Foundations in Enterprise Integration, Cloud Architecture, and Database Management Systems
- Excellent Written and Verbal English Communication for Cross-Functional and Global Team Collaboration
- Fast Learner with High Technical Agility to Rapidly Master New Tools, Frameworks, and Domain Workflows
