MOHANASELVI S

BIOMEDICAL ENGINEER

mohanaselvinirmala@gmail.com | +91 79044 78638 | KARUR

CAREER OBJECTIVE

Student pursuing a degree in Biomedical Engineering looking for an internship program through which I can get some practical experience in the field of healthcare. Eager to learn about medical equipment and technologies as well as about healthcare industry practices..

EDUCATION

Bachelor of Engineering – Biomedical Engineering **JUNE 2023 - APRIL 2027**
KSR Institute for Engineering and Technology
- **CGPA :** 7.9/10 (Current)
- No History of Arrears

Higher secondary Education
Government higher secondary school ,Manmangalam
- **Percentage :** 75%

SKILLS

Designing software : Easy EDA,Solidworks

Soft skill : Attention to Detail,Reliability,Professionalism

Languages : English,Tamil(Native)

PROJECT

3D-Printed Mechanical Exoskeleton for Weightlifting Form Correction

- Designed a fully mechanical, 3D-printed exoskeleton to assist weightlifters in maintaining proper lifting posture and body alignment.
- Incorporated mechanical articulation stops to restrict unsafe joint movements and reduce the risk of lifting-related injuries.
- Developed a lightweight and customizable design that guides correct movement patterns without the use of electronics, motors, or sensors.
- Aims to improve lifting efficiency, enhance muscle engagement, and serve as a biomechanical training aid for athletes.

INTERNSHIP EXPERIENCE

Maruthi Medical Center Hospital,Erode

- Attended a 10-day hospital training program at Maruthi Medical Center Hospital, gaining exposure to hospital operations, medical devices used in patient care and diagnosis, and the role of biomedical engineers in healthcare settings.

WearableMEMS Private Limited,Rasipuram

- Undertook hands-on training in Wearable MEMS technology for Smart Watch Applications in Health IoT, focusing on wearable healthcare devices and sensor-based monitoring systems.

CERTIFICATIONS

NPTEL Certification

- Successfully completed the NPTEL Certification Course on Internet of Things (IoT) with a score of 54%, gaining fundamental knowledge of IoT concepts, communication technologies, and connected systems.

National Cadet Corps (NCC)

- Successfully obtained NCC 'B' Certificate with B Grade.
- Successfully obtained NCC 'C' Certificate with C Grade**.**

Workshop

- Participated in Industry Sponsored Workshop on “Wearable Health Monitoring Systems”, organized by Industry Institute Interaction Cell, Department of Biomedical Engineering, KSR Institute for Engineering and Technology, Tiruchengode in association with WearableMEMS Private Limited (27.04.2024).

KEY ACHIEVEMENTS

TN Skills 2025

- Qualified up to Level 2 in Dental Prosthetics, TN Skills

Smart India Hackathon

- Achieved Grand Finalist status in Smart India Hackathon (SIH) 2025 for the Autodesk Problem Statement.
- Contributed as a Team Member of Team Once Again India.

POSITIONS OF RESPONSIBILITY

- **Symposium Coordinator** – Contributed to the organization and successful execution of technical events and symposium activities.
- **Department Treasurer** – Assisted in managing and maintaining records related to departmental funds and event expenses.
