Education

Vinayaka Mission's University **2022 – 2026**
B.E - Computer Science and Engineering *Salem, Tamilnadu*
CGPA - 7.720/10

Sri Raam Vidyalaya Public School **2019 – 2021**
Higher Secondary Certificate – 86 % *Salem, Tamilnadu*
Secondary School Leaving Certificate – 86 %

Relavent Coursework

Web Development **Jan 2026 – May 2026**
Marathahalli, Bangalore

- Completed comprehensive Web Development training with hands-on experience in HTML, CSS, JavaScript, Java, and SQL, focusing on building responsive and interactive web applications.
- Designed and developed user-friendly, responsive web pages with front-end and basic back-end integration, ensuring better usability across devices.
- Built mini projects involving JavaScript functionality, Java-based application logic, and SQL database operations including form handling and data management.
- Acquired practical knowledge in debugging, problem-solving, responsive design, and core web application development concepts through real-time project implementation.

Projects

Online Learning Management System | *Java, MySQL, HTML, CSS, JavaScript* **April 2026**

- Developed a responsive web-based E-Learning platform using Java, MySQL, HTML, CSS, and JavaScript for online course management. Implemented secure user authentication features including registration, login, profile management, and session handling modules.
- Built interactive functionalities such as playlists, bookmarks, likes, comments, video-based learning, and course search operations.
- Integrated MySQL database connectivity with Java backend to perform CRUD operations and efficient data management. Designed and developed an admin dashboard for managing users, tutors, courses, playlists, and platform activities dynamically.
- Improved user experience by creating responsive UI pages and optimizing navigation for smooth learning management operations.

E-Commerce Web Application | *Java, MySQL, HTML, CSS, JavaScript* **May 2025**

- Developed a responsive E-Commerce web application using Java, MySQL, HTML, CSS, and JavaScript. Implemented user authentication, product management, shopping cart, wishlist, and order management features.
- Integrated MySQL database connectivity for secure CRUD operations and efficient data handling.
- Designed responsive and interactive UI pages to improve user experience and website navigation. Developed admin modules for managing products, categories, users, and customer orders dynamically.
- Implemented product search and filtering functionalities to enhance the online shopping experience.

Technical Skills

Frontend : HTML, Css, Javascript

Backend : Java

Database : SQL

Academic Presentations

- Presented my mini project "Online Learning Manage System" at a departmental student conference, demonstrating its features, design and real-world applications.
- Delivered a classroom seminar on the topic "Introduction to Web Development" covering key concepts such as front front-end technologies, basic back-end logic,and the role of full stack developement.
