RAVIBHARATHI K

SQL DEVELOPER

Summary

Fresher with knowledge of SQL Development and ETL processes, skilled in SQL, SSIS, Data Warehousing, and database management. Experienced in writing SQL queries, creating stored procedures, data extraction, transformation, loading (ETL), and data validation. Familiar with developing and maintaining ETL workflows, optimizing database operations, and building reliable data integration solutions.

Project

Smart Coconut Oil Production Analytics System

Developed an ETL-based data analytics solution using SQL Server and SSIS to monitor coconut procurement, oil extraction, inventory, and sales operations. Designed data pipelines to extract, transform, and load data from multiple sources into a centralized data warehouse. Implemented data validation and automated reporting to analyze production efficiency and business performance. The system helps optimize inventory management, track profitability, and support data-driven decision-making.

College Admission Analytics Data Warehouse

Designed and developed a data warehouse solution using SQL Server and SSIS to analyze student admission trends across multiple departments. Built ETL pipelines to integrate, cleanse, and transform admission data from various sources into a centralized repository. Implemented reporting and analytical features to provide insights into enrollment patterns, course demand, and student demographics. The solution improved data accessibility and supported strategic academic planning.

Achievements

- Certificate of Extreme Connectivity in 6G Networks – IEEE
- NPTEL Certification – Introduction to Internet of Things
- NPTEL Certification – Cloud Computing
- HackerRank SQL (Intermediate) Certification
- Inter-College Event Coordination
- College Symposium Logo Design
