Career Objective

Final-year AI and Data Science student who enjoys turning messy problems into working software. Comfortable across the stack, from building a Flask/React application to writing the SQL behind it, and I pick up new tools quickly on the job. Looking for an entry-level role where I can contribute from day one and keep growing as an engineer.

Education

B.Tech in Artificial Intelligence and Data Science — Gnanamani College of Technology, Namakkal *CGPA: 7.77 / 10*

Higher Secondary (12th) — GHHS, Muthugapatti *66%*

Technical Skills

- Languages: C, Python, SQL
- Front-End: HTML, CSS, JavaScript, React
- Back-End: Flask, REST APIs
- Database: MySQL
- Tools & Version Control: Git, GitHub, Visual Studio Code

Internship

Python Intern — Cybernaut Ed Tech Private Limited *Feb 2026 – May 2026*

- Shipped several small Python projects to practice core programming and problem-solving.
- Wrote automation scripts that cut down manual, repetitive work in sample workflows.
- Got hands-on reps with Python fundamentals through project-based learning.

Projects

Product Sentiment Analyzer and Review Dashboard *Mar 2026*

- Developed a sentiment analysis system that evaluates product reviews and identifies patterns in customer feedback.
- Wrote a scraper to pull reviews automatically instead of collecting them by hand, then ran them through a sentiment classifier.
- Put the results in an interactive dashboard so trends are easy to read at a glance rather than buried in a spreadsheet.

EventTracker – College Event Countdown & RSVP Tracker *Aug 2026*

- Built a full-stack tool for managing college events end-to-end, from creation to RSVP tracking.
- Used React on the front end and Flask with SQLAlchemy on the back end, with JWT-based auth and role-based access so students and organizers see different views.
- Added QR-code check-ins for attendance and SMTP email alerts so people don't miss updates.

Courses & Achievements

- Participated in Smart India Hackathon (SIH); reached round two in both MSME 4.0 and MSME 5.0 Hackathons.
- Won the college-level round of the Startup TN competition.
- Active on Codewars, with a track record of consistent problem-solving.
- Python certification — Cybernaut Ed Tech Private Limited
- SQL — HackerRank
