● CAREER OBJECTIVE

To start my professional journey in a challenging and growth-oriented organization where I can apply my technical skills, learn emerging technologies, and contribute to achieving organizational goals while continuously enhancing my knowledge and expertise in the software industry.

● EDUCATION

Qualification	Institution	Board / Type	Year of Passing	Grade
B.Tech. Information Technology	Kongunadu College of Engineering and Technology	Anna University	2027	CGPA: 7.82*
Higher Secondary (HSC)	S.C.S. Matriculation Higher Secondary School	State Board	2023	84%
Secondary School (SSLC)	S.C.S. Matriculation Higher Secondary School	State Board	2021	—

● PROJECTS

1. AI-Enabled Academic and Career Planning System

Technologies Used : React, Node.js, MongoDB, Python

Description : AI-based system that analyses student interests and recommends suitable academic and career paths, with course recommendation, college discovery, and personalized career guidance features.

GitHub : github.com/anonymouse-sp/AI-Enabled-Academic-and-Career-Planning-System

2. IoT-Enabled Smart Wheelchair with Real-time Fall Detection & Empathetic Voice Response

Technologies Used : Arduino, MPU6050, Wi-Fi Module

Description : IoT-enabled wheelchair system for real-time fall detection, emergency alert notifications, false alarm prevention, and empathetic voice response using threshold-based sensor algorithms.

GitHub : github.com/anonymouse-sp/iot-smart-wheelchair-fall-detection

● INTERNSHIP

Cyber Security Intern – DLK Software Solutions

June-2025 | On-site | Internship

- Acquired foundational knowledge in cyber security, including network security, common attack vectors, and security best practices.
- Assisted in practical exercises on threat analysis and vulnerability identification.
- Developed an understanding of cybersecurity principles through hands-on training, case studies, and real-world security scenarios.

● TECHNICAL SKILLS

Programming Languages	: Java, Python
Web Development	: HTML, CSS, JavaScript
Database	: MongoDB, MySQL
Tools & Technologies	: Git, GitHub
Core Concepts	: OOP, Data Structures & Algorithms

● SOFT SKILLS

- **Good Listener**
- **Team Collaborator**
- **Problem Solving**
- **Decision-Making**

● CERTIFICATIONS

- **Introduction to Internet of Things** – NPTEL | Score: 81%
- **Introduction to Machine Learning** – NPTEL | Score: 60%
- **Front End Web Developer Certification** – Infosys Springboard

● COURSES

- **Java Programming** – Yellowmatics.ai (6-Day Intensive Course)
- **Cyber Security** – Workshop, DLK Software Solutions
- **Kubernetes and AI-LLM** – Workshop, Puducherry Technological University

● ACHIEVEMENTS & HACKATHONS

- Awarded a cash prize for top performance in a 6-day intensive Java programming course by Yellowmatics.ai.
- **Smartathon Hackathon** (24 hrs), St. Joseph College of Engineering – Brain tumour detection system.
- **Tezario Hackathon** (24 hrs), Kongunadu College – Ayurvedic healthcare chatbot.
- **Genesis'24 Hackathon** (30 hrs), Kongunadu College – Smart health monitoring system.
- **Hack at Train Hackathon** (24 hrs) – Policy management system.
- **AI-Agentathon**, Sri Eshwar College of Engineering – Phone number validation system.
- **Thooral Hackathon**, PSG College of Engineering – Emergency call routing system.
- **HackIndia 2026**, Mailam Engineering College – Sign language communication system.
- **2nd AI/ML Challenge Techathon**, IIT Madras.
