PROFILE SUMMARY

IT undergraduate with a strong foundation in Java programming, Object-Oriented Programming (OOP), and software development principles. Passionate about building scalable applications and solving real-world problems through efficient coding. Strong analytical, problem-solving, and communication skills with the ability to quickly learn new technologies and contribute effectively in collaborative software development environments.

EDUCATION

Bachelor of Technology (Information Technology) CGPA: 7.69
Kongunadu College of Engineering and Technology

Higher Secondary Education
Amala Matric Higher Secondary School, Musiri, Trichy (Dt)
Percentage: 81.3

TECHNICAL SKILLS

Programming Language

- Java
- Python

Core Concepts

- Object-Oriented Programming (OOP)
- Data Structures and Algorithms (DSA)
- Database Management System (DBMS)

Database

- SQL
- MongoDB

Web Technologies

- HTML
- CSS
- Node.js

Tools

- Git
- VS Code
- Microsoft Excel
- Flutter (Basic)

Soft Skills

- Communication
- Team Collaboration
- Adaptability
- Requirements Understanding

INTERNSHIP

Web Development Intern **Media Wave Technologies, Trichy**

June 02, 2025 – June 18, 2025

- Gained practical exposure to frontend web development and application design.
- Worked with web technologies to understand application architecture and software development workflows.
- Collaborated in implementing responsive web interfaces and improving user experience.
- Strengthened knowledge of software development practices and project implementation.

CERTIFICATIONS

- NPTEL – Introduction to Internet of Things
- Infosys Springboard – Frontend Development

PROJECTS

Home2Home: A Community-Driven Application for Sustainable Living

Flutter, Node.js, MongoDB

- Developed a full-stack community-driven web application that enables users to donate and access surplus food within nearby communities.
- Implemented secure user authentication and location-based food discovery to improve accessibility and user experience.
- Designed scalable backend services using Node.js and integrated MongoDB for efficient data storage and management.
- Enhanced collaboration and sustainability by providing a platform for efficient food sharing.

Smart Streetlight Monitoring and Utility Fault Detection System

Arduino, LDR Sensor, ADXL345 Sensor, GSM Module, Embedded C

- Developed an IoT-based monitoring system to automatically detect streetlight failures and utility faults.
- Integrated LDR and ADXL345 sensors for real-time fault detection and environmental monitoring.
- Implemented GSM-based notification to improve maintenance response time.
- Designed an automated solution to reduce manual inspection and improve operational efficiency.

Student Academic Performance Analysis

Python, Microsoft Excel

- Developed a data analysis solution to evaluate student academic performance using structured datasets.
- Processed and analyzed internal assessment records to identify subject-wise performance trends.
- Generated meaningful insights and reports that support academic evaluation and decision-making.
- Applied analytical techniques to improve data interpretation and reporting accuracy.

HACKATHONS

PSG College of Engineering, Coimbatore 2026

RAPID-100 (Real-time AI for Priority Incident Dispatch)

- Collaborated in designing an AI-assisted solution for real-time emergency incident prioritization and dispatch.
- Strengthened problem-solving, teamwork, and software design skills through competitive project development.

St. Joseph College of Engineering and Technology, Chennai 2025

AI-Based Smart Traffic Management System

- Contributed to the development of an AI-based traffic management solution aimed at improving traffic flow and reducing congestion.
- Applied logical thinking and collaborative development practices during the hackathon.

TECHNICAL EVENTS

- Paper Presentation – Annapoorana Engineering College, Salem (2024 – 3rd Semester)
- Paper Presentation – Dhanalakshmi Srinivasan College of Engineering and Technology, Trichy (2025 – 5th Semester)
- Idea Presentation – JJ College of Engineering and Technology (2026 – 6th Semester)
