● CAREER OBJECTIVE

To start my career in a growth-oriented organization where I can apply my analytical, technical, and problem-solving skills. I am eager to learn new technologies, turn data into meaningful insights, and contribute to data-driven decisions while growing as a Data Analyst.

● EDUCATION

Qualification	Institution	Board / Type	Year of Passing
B.Tech. Information Technology	Kongunadu College of Engineering and Technology	Autonomous	2027
Higher Secondary (HSC)	Sri Vidhya Mandhir Matriculation Higher Secondary School	State Board	2023
Secondary School (SSLC)	Sri Vidhya Mandhir Matriculation Higher Secondary School	State Board	2021

● PROJECTS

1. Generating Electricity From Human Footsteps

Role : Hardware Development

Technologies Used : Piezoelectric Sensors, Arduino Uno, Battery, LED, Voltage Regulator

Description : Developed a renewable energy generation system that converts mechanical energy from human footsteps into electrical energy using piezoelectric sensors. The generated power can be stored and used for low-power applications such as LED lighting and sensor-based devices.

2. An Advanced Artificial Intelligence Framework For Generating Videos From Natural language Text

Role : AI & Python Developer

Technologies Used : Python, Natural Language Processing (NLP), Machine Learning, Text-to-Speech (TTS),Video Processing

Description : Developed an AI-based framework that automatically generates videos from user-provided text. The system converts text into scripts, generates voice narration, adds relevant visuals and captions, and produces a complete video with minimal user intervention.

● INTERNSHIP

Web Development Intern – Media Wave Technologies

15-Day Program | On-site | Internship

- Completed a 15-day Web Development internship gaining hands-on training in security fundamentals.
- Assisted in frontend and backend integration connecting UI components with backend logic.

● SKILLS

Programming Languages : Java, Python

Web Development : HTML, CSS

Database : MySQL

Soft Skills : Good Listener, Team Collaboration, Enthusiastic, Communication

● CERTIFICATIONS & COURSES

- **Java Programming** – Yellowmatics.ai (6-Day Intensive Course)
- **Introduction to Internet of Things** – NPTEL
- **Web Development** – Internship,Media Wave Technologies
- **Infosys Springboard** – Front-End Web Developer, Programming Fundamentals using Python.
- **Hackup Technology** – Value-Added Course in Cyber Security
- **Artificial Intelligence foundation** – Variablz Academy

● EVENTS & PARTICIPATION

- **Paper Presentation :** Annapoorana Engineering College, Salem – *Presented technical concepts and innovative ideas in an academic forum.*
- **STELLANTS Automotive Software Workshop :** National Institute of Technology (NIT), Trichy – *Gained exposure to automotive software technologies and industry practices*.
- **Thooral Hackathon**, PSG College of Engineering – Developed an AI-based solution for emergency incident prioritization and dispatch management.

● DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.

Place : Namakkal Yours faithfully,
