SUHEMA A

+91-9360687832 | suhema29@gmail.com | linkedin.com/in/suhema | Salem, Tamil Nadu

PROFESSIONAL SUMMARY

B.Tech Artificial Intelligence & Data Science student with hands-on experience in Python, Machine Learning, Generative AI concepts, SQL and intelligent application development. Skilled in data preprocessing, predictive analytics, model building, computer vision and AI-based decision support. Interested in applying AI and Data Science techniques to practical real-world problems.

TECHNICAL SKILLS

Programming & Query	Python, SQL
Data Science	Pandas, NumPy, Data Preprocessing, Feature Engineering, Predictive Analytics, Model Evaluation
AI & Machine Learning	Machine Learning, Deep Learning, Generative AI, Prompt Engineering, Classification, Regression, Computer Vision
Libraries & Frameworks	Scikit-learn, TensorFlow/Keras, OpenCV, Flask
Visualization & BI	Power BI
Tools	Git/GitHub, Jupyter Notebook, VS Code

PROJECTS

AeroInspectAI | **Python | Machine Learning | Computer Vision | Flask | 2026**

- Developed an AI-based aviation safety system covering preflight inspection, inflight monitoring and risk prediction.
- Used computer vision and ML-based decision logic to identify inspection issues, monitor conditions and estimate risk levels.
- Generated intelligent suggestions from detected conditions to support timely safety decisions.

IoT and Edge Based Smart Telecom Tower Monitoring System | **Python | Machine Learning | IoT/Edge | 2026**

- Designed an intelligent monitoring system to observe telecom tower parameters and identify abnormal operating conditions.
- Applied AI/ML concepts for anomaly detection and risk indication using sensor-based inputs.
- Proposed real-time alerts and edge-side processing to support faster maintenance and reduce downtime.

Subsidized Food Management System | **Python | Machine Learning | Flask | SQL | 2026**

- Developed a public-use platform to monitor subsidized food stock, availability, pricing and distribution information.
- Applied ML-based demand prediction to estimate area-wise requirements and support better stock planning.
- Included intelligent alerts, fraud/anomaly detection concepts and voice-friendly access for easier public usage.

EDUCATION

B.Tech – Artificial Intelligence & Data Science
Mahendra Engineering College, Namakkal, Tamil Nadu | 2023 – 2027
CGPA: 9.45 / 10 (up to 6th Semester)
Coursework: Machine Learning, Deep Learning, DBMS, Statistics, Data Warehousing & Mining, Business Intelligence

HSC (12th) – DSMS Higher Secondary School, Salem | 87% | 2021–2023

SSLC (10th) – DSMS Higher Secondary School, Salem | 100% | 2020–2021

CERTIFICATIONS & INTERNSHIPS

- NPTEL – Elite + Silver in Internet of Things & Soft Skills
- Cloud Computing Internship – Litz Technologies
- Full Stack Development Internship – Techno Hacks Pvt. Ltd.
