OBJECTIVE

I am a Computer Science professional with working knowledge of Python, SQL, Power BI, Web technologies and AI tools. I have extensive experience in developing practical solutions in the form of automation, data analysis, IoT and machine learning through my work experience and various projects, including participating in an AI-driven chrome extension for phishing detection. My key skills are problem solving, team working, leadership and a willingness to learn and use new technologies to find practical solutions in different fields.

SKILLS

Technical Skills: Python | JavaScript | HTML | CSS | SQL | Power BI | Git | GitHub | VS Code | AI Tools

Soft Skills: Leadership | Teamwork | Problem Solving | Adaptability | Quick Learner | Active Listener

EXPERIENCE

ServiceNow -Virtual Internship Program **March 2026 - May 2026**

- Automated IT service workflows using ServiceNow Flow Designer, reducing manual intervention in ticket resolution processes.
- Built and executed Automated Test Framework (ATF) test suites to validate workflow integrity.
- Configured dashboards and generated reports for service performance tracking aligned with CSA exam standard.

Infosys Springboard - Virtual Internship Program **February 2026 - April 2026**

- Designed and developed a Smart Water Quality Monitoring System capable of real-time contamination detection using sensor data pipelines.
- Implemented data analysis workflows to process live readings and flag anomalies beyond safe thresholds.
- Documented system architecture, data flow diagrams, and test cases as part of full project lifecycle

Salesforce - Virtual Internship Program **May 2025 - June 2025**

- Built and deployed Lightning Web Components to automate business workflows on the Salesforce platform, reducing manual process steps.
- Developed Apex triggers and classes to handle backend logic for custom CRM features.
- Configured role-based security architecture using Profiles, Permission Sets, and Role Hierarchies to enforce data access controls

EDUCATION

Mahendra Engineering College, Namakkal-B.E.in Computer Science | CGPA : 8.8 (Sept 2023-Present)

John Britto Matric Hr Sec School, Salem - Higher Education | Percentage: 82.5 (2022-2023)

John Britto Matric Hr Sec School, Salem - Secondary Education | Percentage: 100 (2021-2022)

BADGES AND CERTIFICATIONS

- Build Real World AI Applications with Gemini and Imagen - Google Cloud.
- Prompt Design in Vertex AI badge - Google Cloud.
- Python Foundation Certification - Infosys Springboard.
- Programming in Java - NPTEL
- Cloud Computing - NPTEL
- Introduction to IoT - NPTEL

PROJECTS

Phishing Website Detection | Mini-Academic Project

- Developed NeuroShield,a real-time phishing detection Chrome extension using a hybrid ensemble (Random Forest, XGBoost, SVM, CNN+LSTM) with a Flask backend, achieving 97% accuracy and delivering sub-2-second automated alerts via a 29-feature SMOTE-balanced stacking pipeline.

Weather Monitoring System | Academic Project

- Developed an IoT-based weather station using Arduino, DHT11 sensors, and ThingSpeak cloud to monitor temperature and humidity in real-time.
- Enabled remote data visualization and alerts through a cloud- based dashboard.

Smart Irrigation System | Academic Project

- Designed an automated irrigation system using soil moisture sensors and Arduino to regulate water flow. Integrated
- IoT and cloud for real-time monitoring, reducing manual work, and conserving water resources

LANGUAGES

English

Tamil

Hindi

ACHIEVEMENTS

- Participated in SmartBridge/AICTE virtual internship programs.
- Participated in Smart India Hackathon 2025
- Certified as SnowPro Associate : Platform

LEADERSHIP AND RESPONSIBILITIES

- **Main Coordinator -** Department Hackathon – Led the planning and execution of a hackathon organized by the Computer Science Department.
- **Volunteer -** Department Boot Camps – Assisted in organizing and conducting technical boot camps for junior students.
- **Coordinator -** College-Wide Coding Activity – Coordinated coding events and participant engagement across the college.
