PROJECTS

An Automatic Fork System for Reducing the Mortality of Chickens in Poultry Farm 2025

- **Status** : Patent Filed
- **Patent Number** : 202541052328

Automatic Tarpaulin Roller for Poultry Farm 2024

- Summary : Developed a smart system using DHT, rain, and anemometer sensors to automate tarpaulin movement based on weather conditions.

Smart Car Parking System 2023

- Summary : Designed and implemented an automated parking system using Arduino, IR sensors, and servo motors.

ACHIEVEMENTS

- Awarded for securing 2nd prize in project-building event Buildathon'25, M.Kumarasamy College of Engineering, Karur
- Learning PCB Design with KiCad – Updated for KiCad 9 in Udemy. comprehensive course on PCB design using KiCad, covering schematic creation, layout design.
- Awarded 1st Place in Power Play Quiz SparkFest 2K25 at Karpagam Academy of Higher Education.
- Secured 1st Place in Electric Detectives National-level Technical fest, Karpagam Academy of Higher Education.
