## PROFESSIONAL SUMMARY

Java-focused graduate with hands-on experience in building console-based applications and REST APIs using Core Java, Spring Boot, OOP, JDBC, and PostgreSQL. Recently developed a Product Management REST API demonstrating practical understanding of Spring Boot, JPA/Hibernate, validation, and exception handling. Strong problem-solving skills with 250+ LeetCode problems solved. Seeking a Java Developer role to contribute and grow in a professional environment.

## EDUCATION

**B.E. — Computer Science & Engineering | PSN Engineering College, Tamil Nadu**

Graduated: 2026

**HSC — Maths & Biology | Amir Jamal Hr. Sec. School**

Completed: 2022 | Percentage: 67%

## TECHNICAL SKILLS

- Core Java
- OOP
- Spring Boot (Hands-on)
- REST APIs (Hands-on)
- JDBC
- PostgreSQL
- SQL
- Git
- JPA/Hibernate
- Validation & Exception Handling

## PROJECTS

**Product Management REST API |** *Tech Stack: Spring Boot, JPA/Hibernate, PostgreSQL, REST API*

- Developed a fully functional REST API with 7 endpoints (CRUD operations + search functionality)
- Implemented data validation using Hibernate validators (@NotBlank, @Min, @Max)
- Built Global Exception Handler to manage validation errors and custom exceptions
- Created layered architecture: Entity → Repository → Service → Controller
- Database design with PostgreSQL featuring automatic table creation and JDBC URL configuration

**Student Attendance Management System (SAMS) |** *Tech Stack: Java, JDBC, PostgreSQL*

- Developed a console-based Student Attendance Management System with Core Java and JDBC
- Built menu-driven application with role-based functionality (Admin, Staff, Student)
- Designed PostgreSQL database with multiple tables for students, staff, and attendance records
- Implemented CRUD operations using PreparedStatement for secure database connectivity

## INTERNSHIP EXPERIENCE

**Java Programming Intern | CodeAlpha (Virtual Internship) | May 2026**

- Completed Java programming tasks focusing on Core Java concepts and OOP principles

## ACHIEVEMENTS

- Earned LeetCode 200-Day Streak Badge — solved 250+ problems with strong focus on Arrays, Strings, and HashMaps.
