CAREER OBJECTIVE

Final-year B.Tech Agriculture Engineering student with hands-on experience across food processing, food safety, quality control, and retail operations gained through four industrial internships. Proficient in Python and AutoCAD, with a strong foundation in agricultural engineering principles. Seeking a role in food processing, quality assurance, or sustainable product development.

QUALIFICATION

Bachelor of Technology in Agriculture Engineering **2023 – 2027**
Dhanalakshmi Srinivasan University, Trichy | CGPA: 8.75

TECHNICAL SKILLS

- Programming & Design Tools: Python, AutoCAD, CAD/3D Modelling
- Agricultural & Food Processing: Food Processing, Food Safety, Quality Control, Post-Harvest Operations
- Engineering Skills: Agricultural Machinery, Processing Operations, Technical Documentation, Basic Engineering Analysis

NON-TECHNICAL SKILLS

Problem-Solving | Team Collaboration | Communication | Time Management | Adaptability | Quality Awareness

PROJECTS

Development of a Fully Edible Chewing Gum Concept (Team of 4)

- Led research and documentation for a team-based concept for a fully edible chewing gum aimed at eliminating the non-biodegradable waste created by conventional gum.
- Compiled research on food safety and consumer-friendly formulation options to support the team's product design decisions.

Tools/Skills: Food Processing, Product Development, Food Safety, Quality Control

INTERNSHIPS

Food Safety and Processing Intern **June 2025**
K.T.V Health Food Private Limited | Thoothukudi

- Guided production workers on hygienic handling practices across 10-20 batches per day to maintain food safety standards.
- Monitored processing operations on the floor to ensure hygiene protocols were followed consistently.

Food Processing Intern **September 2025**
Aavin | Salem

- Supported daily processing operations handling approx. 6 lakh litres of milk, including 2.5 lakh litres of packed milk and 0.5 lakh litres for value-added products.
- Conducted laboratory quality tests on incoming milk to verify it met quality standards before processing.

Quality Control Intern **April 2026**
Ruby Food Products Private Limited | Madurai

- Inspected 15-20 raw material and finished product samples per day, maintaining quality records in line with food safety standards.
- Identified and eliminated defective products during production to prevent them from reaching later stages.

Retail Department Intern **June – July 2026**
MSCT Agro Production | Dharmapuri

- Advised customers on suitable products and recommended modern, effective fertilizer usage based on their needs.
- Clarified customer doubts and supported daily retail operations, including inventory and product display.

CERTIFICATIONS

- Food Science and Technology — NPTEL
- Canning Technology, Value Addition of Sea Foods (Fish Processing) — NPTEL
- Post-Harvest Operations and Processing of Fruits, Vegetables, Spices and Plantation Crop Products — NPTEL
- Food Microbiology for Safe and Sustainable Food Systems — NPTEL
- Crash Course on Python — Google / Coursera
- Master AutoCAD Basics: Create, Modify & Annotate 2D Drawings — Coursera
- Master AutoCAD 3D: Create, Model & Transform Designs — Coursera
- Drone Building Workshop — Air Vulture Aerospace
