CAREER OBJECTIVES

Seeking an opportunity to turn my academic knowledge into practical industry experience. Interested in working on real-world projects and solving technical challenges. Eager to develop my skills through continuous learning and teamwork. Committed to becoming a reliable and valuable professional in the organization..

EDUCATION

- **Bachelor of Engineering – Electrical and Electronics Engingeering**
  K.S.R College of Engineering, Chennai,*2021 – 2025, CGPA: 8.02*

TECHNICAL SKILLS

- **Development:** HTML,CSS, JavaScript,SQL.
- **Programming Languages:** C, C++, JavaScript.
- **Salesforce platforms:** Salesforce, CRM, Apex, Flows.
- **Core Skill :** Embedded System, Digital Electronics

PROJECT

Employee Management

Description: Designed and implemented an Employee Management System using JavaScript objects and a custom constructor function for creating structured employee records.

IoT Enabled EV System

Description: Designed and implemented an IoT

Enabled Electric Vehicle (EV) framework integrating piezoelectric energy harvesting and a buck-boost converter. Developed adaptive speed control for RF-safe zones, reducing vehicle Speed and integrated real time driver monitoring.

INTERNSHIP

Salesforce Developer Virtual Internship
November2023–January 2024

- A Salesforce Developer creates custom apps using Apex, Visual force and Lightning Web Components to solve business problems. On the Salesforce platform.

Junior Software Developer Trainee
Vinsys IT Services – ongoing

- Gaining hands-on practice in database operations using SQL and backend logic design.
- Learning structured application development workflows, API integration concepts, and code efficiency standards.

CERTIFICATIONS

- **'Introduction to Artificial Intelligence'** on February 6, 2024 in Coursera.
- **Capital marketing**–Infosys Springboard
- **'Internet of Things and Sensor Integration for System Applications'**-Value added course.
  Microsoft excel in Great learning
- workshop on "**Development Of Machine Learning Model From Data To Decision**"at Karpagam College of Engineering, Coimbatore.
- Paper presentation on "**Secure Communication Protocols for Smart Grids**" at VSB College.
- Workshop on "**Embedded System**" PGP College of Technology on October 29th and 30th, 2022.
