ABOUT

Eager to begin my professional journey in Java programming, with a strong foundation in core concepts and an interest in web design. Focused on creating user-friendly and practical technology solutions.

EDUCATION

BACHELOR OF ENGINEERING IN COMPUTER SCIENCE (2022 -2026)
Kongunadu College of Engineering & Technology **CGPA (8.0)**
HIGHER SECONDARY (2021 -2022)
Amala Girls Higher Secondary School **(74%)**
SECONDARY (2019-2020)
St Mary's High School **(86.4%)**

TECHNICAL SKILLS

- Java
- C Programming
- HTML ,CSS & JS
- Spring Boot
- MySQL
- Machine Learning

PROJECT

1.INTELLIGENT SPEECH FLUENCY AND SIGN TRANSLATION SYSTEM

- Developed a platform that helps users with speech difficulties and hearing impairments communicate through speech-to-text and sign-to-text translation.
- Enabled real-time speech recognition and sign language detection to support easier and more accessible communication.

Technologies: Python, OpenCV, dlib, Keras, CNN, Webcam

2. DROWSINESS DETECTION USING MACHINE LEARNING

- Built an ML-based system that detects drowsiness by tracking eye closure and yawning using facial landmarks.
- Trained a CNN to classify driver states and integrated a real-time audio alert to enhance safety.

Technologies: PyTorch, Librosa, OpenCV, Whisper API, Streamlit

3. ENABLING TRANSPARENT GENEROSITY THROUGH BLOCKCHAIN

- Developed a blockchain-based donation platform to help donors track how their contributions are recorded and improve transparency in the donation process.
- Designed the system to build donor trust through transparent and traceable transactions, helping users easily track their contributions.

Technologies: HTML, CSS, JavaScript, Solidity, Ethereum, Web3.js, MetaMask

HACKATHON

Participated in the **VIT Bhopal Health Hackathon** and created an AI-powered Drug Research Platform to help scientists and researchers discover safe and effective medicines faster using smart predictive analysis.

SOFT SKILLS

- Communication
- TimeManagement
- TeamWork
- Communication
- Problem Solving

CERTIFICATION

- **Machine Learning - SmartED**
- **UI/UX - Xplore IT CORPs.**
- **Web Development - LitZ Tech**
