PROFESSIONAL SUMMARY

Aspiring Java Developer with strong knowledge of Core Java, OOPS, JDBC, Hibernate, Servlets, and SQL. Seeking an entry-level Java Developer opportunity to apply my technical skills, contribute to software development projects, and grow professionally while supporting organizational success through continuous learning and teamwork.

EDUCATION DETAILS

Muthayammal College of Engineering B.Tech / Artificial Intelligence and Data Science CGPA :7.82		2022-2026
GHSS, R. Pudupalayam, Rasipuram, 637 408	HSC : 65%	2022
GHSS, R. Pudupalayam, Rasipuram, 637 408	SSLC : 65%	2020

TECHNICAL SKILLS

Programming: Java

- Strong knowledge of Core Java, OOPS concepts, Java 8 features including Lambda Expressions, Functional Interfaces, Optional Class.
- Proficient in Arrays, Methods, Exception and File Handling, Conditional and Looping Statements.
- Good understanding of Java Collections Framework, Familiar with Java internals including JVM architecture and class loading.

Java Technologies

- JDBC - Database connectivity, CRUD operations, Prepared Statement, ResultSet and Transaction handling.
- Hibernate - Entity Mapping, SessionFactory, Session, Transactions and CRUD operations.
- Servlets – HTTP Request/Response handling, Servlet lifecycle, Login Authentication, Session Management.

Database:

- Strong knowledge of SQL queries, CRUD operations, Joins, Subqueries and Ability to design and manage tables with constraints, techniques and query performance.

PROJECT

PRIVACY-PRESERVING DECENTRALIZED ACCESS CONTROL SYSTEM USING BLOCKCHAIN, IPFS, AND ZERO-KNOWLEDGE PROOFS.

- Developed a decentralized, privacy-focused data-sharing system using Blockchain, IPFS, and cryptographic techniques to address the security, transparency, and single-point-of-failure limitations of centralized cloud storage.

PRODUCT MANAGEMENT.

- Developed a Java-based CRUD application using JDBC and Hibernate Mapping to perform Create, Read, Update, and Delete operations on a relational database.
- Implemented database connectivity, SQL queries, and user input handling to manage records efficiently.

LIBRARY MANAGEMENT SYSTEM | SERVLET WEB APPLICATION.

- Developed a Java Servlet-based web application using Servlets, JSP, JDBC, MySQL, HTML, CSS, and with complete CRUD functionality.
- Implemented authentication, session management, form validation, exception handling, and deployed/tested the application on Apache Tomcat.

INTERNSHIP

Full Stack Developer Trainee – QSpiders

- Built practical knowledge of Full Stack Development using Java, HTML, CSS, JavaScript, SQL, and React.js.
- Gained hands-on experience by working on real-time training exercises and development projects.
- Developed an understanding of both frontend and backend development, including user interface design, server-side logic, and database integration.

ACHIVEMENTS & AWARDS

- Participated in the regional-level HackIndia 2025 hackathon at Muthayammal College of Engineering, Rasipuram.
- Completed an internship in Full Stack Development using Python at SkyPark ITech, Coimbatore.
- Attended a workshop on “Emerging Cybersecurity Trends” at KSR Institute of Engineering and Technology, Tiruchengode.

DECLARATION

I hereby confirm that all the information given above is true to the best of my knowledge and belief.
