SUHAIL HAMEED T

Samundipuram, Tirupur, Tamil Nadu, India | +91 7868071106 | suhailhamee786@gmail.com

LinkedIn: linkedin.com/in/suhail-hameed | LeetCode: leetcode.com/u/suhailhamee786

OBJECTIVE

Entry-level IT aspirant seeking to begin a career in software development, applying knowledge of Java, Data Structures & Algorithms, and web technologies to build efficient, real-world solutions.

EDUCATION

Nandha Engineering College, Erode 2023 – 2027
B.E. Electronics & Communication Engineering — CGPA: 6.9 (through 5th semester)

Bishop Ubagarawamy Higher Secondary School, Tirupur 2022 – 2023
HSC (12th) — Percentage: 62.5%, Tamil Nadu

Bishop Ubagarasamy Higher Secondary School, Tirupur 2020 – 2021
SSLC (10th) — All Pass, Tamil Nadu

TECHNICAL SKILLS

Programming Languages: Java, C (Basics)
Development Tools: Visual Studio Code, Eclipse IDE, NetBeans
Core Areas: Data Structures & Algorithms, Embedded Systems, IoT

PROJECTS

Smart Head Lamp Control for Automobiles
- Designed an automated head lamp control system to improve driving safety and convenience for automobiles.
- Built and tested a working prototype demonstrating automatic lamp activation based on ambient conditions.
- Exhibited the project at Nandha's Innovation Day '25 (Edition 14), Nandha Engineering College.

Ammonia Detection and Exhaust Fan Control System
- Developed a Problem-Based Learning (PBL) mini project to monitor ammonia gas concentration in real time.
- Implemented an automatic exhaust fan control mechanism triggered when gas levels exceeded a safe threshold.
- Focused the design on improving workplace and environmental safety through early hazard detection.

Smart Road Pit Detector for Vehicles
- Designed a system to detect road pits and potholes to enhance vehicle safety and driving comfort.
- Developed the concept into a patentable innovation with practical automotive application.
- Filed a patent application for the project, with rights subsequently granted.

INTERNSHIP EXPERIENCE

Embuzz Technologies *16 Jun 2025 – 30 Jun 2025*
- Learned the fundamentals of embedded systems and AVR microcontrollers.
- Gained hands-on experience in Arduino Uno programming and sensor interfacing.
- Developed mini projects using LEDs, buzzers, and various sensors.

Caliber Embedded Technologies *23 Dec 2025 – 05 Jan 2026*
- Worked on IoT-based sensor monitoring systems using Bluetooth HC-05 and multiple sensors.
- Integrated hardware components and analyzed real-time sensor data for embedded applications.

CERTIFICATIONS (NPTEL)

- Introduction to IoT — Elite + Silver
- Cloud Computing
- Introduction to Industry 4.0 and Industrial Internet of Things — Elite

- Foundation for Virtual and Augmented Reality Systems — Elite

CO-CURRICULAR ACTIVITIES

- Participated in SyNECtics at Nandha Engineering College.
- Presented a project at the Project Expo conducted by Nandha Engineering College.
- Participated in a Technical Event at Vidhya Vikas College of Engineering and Technology.
- Participated in SDG Quiz at K. Ramakrishnan College of Engineering.
- Participated in State Level Mathematical Quiz conducted by Indian Society for Technical Education.
