CAREER OBJECTIVE

To utilize my technical skills, programming knowledge, and problem-solving abilities to develop efficient and practical solutions, contribute to innovative projects, and support organizational growth. I aim to continuously learn new technologies, strengthen my technical expertise, work effectively in a team, and gain hands-on industry experience while building a successful career in the IT field.

EDUCATION

B.E Computer Science and Engineering — **KARUR, TAMILNADU**
V.S.B Engineering College — *2022- 2026*

HSC — **ERODETAMILNADU**
Shri Ganga Higher Secondary School — *2021 - 2022*

SSLC — **ERODE, TAMILNADU**
Shri Ganga Higher Secondary School — *2019 – 2020*

TECHNICAL SKILLS

- **Programming Language:** Java.
- **Front End:** HTML, CSS, Java Script.
- **Back End:** MySQL.
- **Others:** Cloud Computing

PROJECTS

E-commerce Website

- Developed an E-Commerce website for browsing and purchasing various products online.
- Implemented user authentication for secure registration and login.
- Enabled admins/instructors to upload and manage products with images and videos.
- Integrated a secure payment gateway for online transactions.
- Added order and product tracking for a better shopping experience.
- Tech Stacks Used: HTML, CSS, JS.

Remainder-AI

- Developed Reminder AI, a full-stack smart reminder web application.
- Built using HTML, CSS, JavaScript, Node.js, Express.js, and MariaDB.
- Implemented user authentication, task scheduling, and reminder management.
- Integrated WhatsApp, Email, SMS, and Voice Call reminder features.
- Used AI-assisted development for coding guidance, debugging, and feature improvement.

INTERNSHIP

Infosys Springboard Internship – AI-Driven Adaptive Learning and Exam Generator

- Completed Infosys Springboard Internship 6.0 (B6-7) Skill Forge.
- Worked on an AI-Driven Adaptive Learning and Exam Generator project.
- Developed features for personalized learning and automated exam generation.
- Gained practical experience in AI concepts, application development, and problem-solving.
- Learned the basics of full-stack web development.
- Understood how frontend and backend communicate with each other.
- Gained basic knowledge of Node.js, Express.js, and MariaDB.
- Learned database connection, user authentication, and API integration.
- Improved my debugging and problem-solving skills with AI-assisted development.
- Built web pages using HTML and CSS for the Adaptive Learning and Exam Generator.
- Learned how to structure webpages using forms, buttons, navigation, and different UI components.
- Worked on displaying study materials, MCQ questions, quiz results, and student progress.
- Gained experience in converting project ideas and requirements into functional webpages.
- Improved my understanding of website structure, user flow, testing, and fixing UI issues.

CERTIFICATIONS

- JAVA – HACKER RANK
- Google Cloud Computing – NPTEL
- Project Management Fundamental – HP
- SQL – Infosys springboard
