Professional Summary

Computer Science Engineering graduate with a strong foundation in software development and hands-on experience building full-stack applications. Familiar with Java, JavaScript, Spring Boot, React.js, Node.js, databases, REST APIs, and software development practices. Strong understanding of programming, object-oriented concepts, database fundamentals, and problem-solving. Seeking an entry-level software development opportunity to apply technical skills and contribute to real-world projects.

Technical Skills

Programming Languages	Java, JavaScript
Frontend	React.js, Next.js, HTML5, CSS3
Java Backend	Spring Boot, Spring MVC, Spring Data JPA, Hibernate, Maven
Backend	Node.js, Express.js, REST APIs
Database	MySQL, SQL, MongoDB, Relational Database Concepts
DevOps	Docker fundamentals
Core Concepts	OOP, DBMS, Data Structures & Algorithms Fundamentals, SDLC Fundamentals, System Design Fundamentals

Projects

BibleQuests – Interactive Quiz Platform *React.js, Node.js, Express.js, MongoDB*

- Developed a full-stack interactive quiz platform supporting quiz categories, questions, team participation, and game sessions.
- Implemented host and join functionality with room-based participation and dynamically generated room PINs.
- Built REST APIs using Node.js and Express.js and integrated MongoDB for managing quiz-related data.
- Developed responsive React.js interfaces for quiz creation, participation, and question management.
- **Live:** biblequests.netlify.app

ManoMercy Supermarket – Online Ordering System *React.js, Node.js, Express.js, MongoDB*

- Developed a full-stack online ordering application with separate user and admin functionalities.
- Implemented product management, search functionality, order tracking, and CRUD operations.
- Developed REST APIs using Node.js and Express.js and integrated MongoDB for application data management.
- Built responsive frontend components using React.js and integrated frontend and backend services.
- **Live:** manomercysupermarket.netlify.app

Experience

Full Stack Development Training – Imagecon Academy *1-Month Industrial Training*

- Gained hands-on experience in developing and maintaining full-stack web applications through practical development projects.
- Worked on application development, debugging, testing, and resolving technical issues during the development lifecycle.
- Developed reusable application components and integrated different modules to support end-to-end functionality.
- Worked with databases, APIs, and application data while implementing and testing various application features.
- Followed software development practices including version control, problem-solving, testing, and structured development workflows.

Achievements

- Earned a Gold Badge in Java on HackerRank.
- Earned a Silver Badge in C on HackerRank.

Education

B.E. Computer Science and Engineering 2023 – 2026
Knowledge Institute of Technology, Salem CGPA: 7.5

Diploma in Computer Science 2023
CSI Polytechnic College, Salem 78.9%
