PROFESSIONAL SUMMARY

B.Tech (Honors) AI and Data Science student with hands-on internship experience building end-to-end ETL pipelines and interactive Power BI dashboards. Proven research capability with an accepted IEEE conference publication and a published AI patent in Deep Learning. Proficient in Python, SQL, PySpark, and fine-tuning Large Language Models (LLMs). Seeking entry-level opportunities in Data Analytics, Data Engineering, or AI/ML tracks..

EDUCATION

B.Tech (Honors) – Artificial Intelligence & Data Science **2022–2026**
Sri Shanmugha College of Engineering and Technology, Salem **CGPA: 8.7**
HSC – Government Girls Higher Secondary School, Jalakandapuram **2021–2022 | 65%**
SSLC – Government Girls Higher Secondary School, Jalakandapuram **2019–2020 | 75%**

PROFESSIONAL EXPERIENCE

Data Analyst Intern | aakam360 **Jan 2025–Jan 2026**

- Developed end-to-end **ETL pipelines** using SQL, PostgreSQL, and PySpark.
- Built interactive **Power BI dashboards and KPI reports** for business insights.
- Performed data cleaning, validation, and exploratory data analysis.
- Optimized SQL queries and supported reporting automation and data quality improvement.

Networking Virtual Intern | AICTE EduSkills (Zscaler) **Jul 2024–Sep 2024**

- Studied OSI/TCP-IP models, IP addressing, subnetting, routing, switching, and network security concepts.

PROJECTS

End-to-End ETL Pipeline for Student Data Management

- Designed ETL workflows using PostgreSQL, PySpark, and Power BI with staging and data warehouse architecture.
- Developed dashboards for attendance and academic performance analytics.

Tamil Speech-to-Text Transcription System

- Fine-tuned **OpenAI Whisper** for Tamil speech recognition and developed a Gradio application for real-time transcription.
- Applied audio preprocessing techniques to improve transcription accuracy.

Language-Agnostic AI Chatbot

- Developed a multilingual NLP chatbot with intent recognition and scalable conversational architecture.

Attendance & Fees Analytics System

- Analyzed trends using SQL and created Power BI visualizations for analytical insights.

TECHNICAL SKILLS

Programming: Python, SQL, Java
Data Analytics: Microsoft Excel, Pivot Tables, XLOOKUP, Power Query, Power BI, DAX, ETL, Data Cleaning, EDA, Data Visualization
Databases: PostgreSQL, MySQL
AI & Machine Learning: Machine Learning, Deep Learning, NLP, Speech Recognition, Predictive Analytics
Generative AI & LLMs: Generative AI, Large Language Models (LLMs), Prompt Engineering, AI-powered Applications
Tools: PySpark, Git, GitHub, VS Code, Google Colab, MS Office

CERTIFICATIONS

Data Analytics – Besant Technologies | **Data Science & AI** – Besant Technologies
NPTEL Elite – Network Security & Soft Computing | NPTEL Elite – Sustainable Energy Development
Ethical Hacking – NPTEL | Power BI & Data Analytics – PrepInsta

PUBLICATION & PATENT

IEEE Conference Publication: *Emotion-Aware Multilingual Sign Language Interpretation Using Deep Learning* – Accepted for publication at **IEEE ICKECS 2026**.
Patent: *Emotion-Aware Multilingual Sign Language Interpretation System Using Deep Learning* – Patent Application No. **202641007326**, published February 2026.
