Ragul M

Aspiring UI/UX Designer

ragulmarimuthu62@gmail.com | +91 83444 64419 | Bangalore, Karnataka | Linkedin profile | Behance profile

SUMMARY

Detail-oriented UI/UX Designer specializing in user research, wireframing, prototyping, and usability testing, with hands-on expertise in designing intuitive, user-centered digital products. I leverage Figma for collaborative wireframing and high-fidelity prototyping, Adobe Illustrator and Photoshop for custom illustrations and photo-realistic asset creation, Sketching for rapid ideation and hand-drawn concepts, Framer for interactive prototypes. with smooth animations, and Canva for quick visual mockups and accessible graphics passionate about creating simple, visually appealing interfaces that solve real problems.

PROJECT

PLANZY – Mobile Booking App Link

Designed a mobile booking platform for hotels, travel, events, and movies with a user-centered experience. Conducted user research and created wireframes & high-fidelity prototypes using Figma. Improved user flow with OTP login, reminders, smart check-in, and responsive UI design.

TUNECART – E-commerce Website

Designed a modern e-commerce website for headphones and earbuds with intuitive navigation. Created product listing, product detail pages, and a smooth cart & checkout flow. Ensured responsive design for both mobile and desktop users.
