PROFESSIONAL SUMMARY

Full Stack Developer (2026 graduate) with hands-on experience building and deploying full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Built and deployed production-ready projects including an AI-powered Resume Analyzer using Groq AI (LLaMA 3.3 70B) and Prescripto — a MERN stack doctor appointment system with JWT authentication and role-based dashboards. Seeking a Junior Frontend / Full Stack Developer role to contribute and grow.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, React Hooks, Context API, Bootstrap, Tailwind CSS, Responsive Design
Backend: Node.js, Express.js, REST API Development,JWT Authentication
Database: MongoDB,MySQL
Tools: Git, GitHub, VS Code, Postman, Netlify, Vercel, Render,Axios,Cloudinary
AI & APIs: Groq AI API, LLaMA 3.3 70B, Unsplash API
Concepts: State Management, API Integration, Error Handling, Component Architecture

EXPERIENCE

React Developer Intern – Zen1TechPark Feb 2026 – Present

- Deliver React.js training sessions covering Hooks, Component Architecture, and project development for aspiring developers.
- Guide students through hands-on React projects, covering component design and deployment workflows.
- Support the development team with technical tasks under reporting manager's guidance.

Frontend Developer Intern – Gateway Solutions Jan 2024 – Feb 2024

- Built reusable React.js components using Hooks and responsive design principles
- Integrated REST APIs using Axios with error handling and input validation
- Optimized API calls to improve application performance and load time
- Collaborated with backend team on REST API integration.

PROJECTS

Prescripto – Doctor Appointment System (MERN Stack) GitHub

- Developed full-stack doctor appointment platform using React.js, Node.js, Express.js, MongoDB, and Cloudinary.
- Implemented JWT authentication with bcrypt password hashing and role-based access for Admin, Doctor, and Patient.
- Built 10+ RESTful API endpoints for user registration, appointment booking, cancellation, and slot availability.
- Developed responsive React UI with reusable components, React Hooks, and Context API for Admin and Patient dashboards.

AI Resume Analyzer Live Demo

- Built full-stack AI-powered resume analyzer using React.js, Node.js, and Express.js, deployed on Vercel and Render.
- Integrated Groq AI API with LLaMA 3.3 70B to generate ATS scores, keyword analysis, and improvement suggestions.
- Implemented PDF parsing using pdf-parse to extract and analyze uploaded resume content.
- Built JWT-based user authentication with protected routes for secure resume analysis access.

Image Search Website (JavaScript, REST API) Live Project Link

- Built image search platform using Vanilla JavaScript and Unsplash API with async/await Fetch API.
- Implemented paginated search with dynamic Show More feature to load images without page reload.
- Designed responsive grid layout with CSS Flexbox and media queries for mobile and tablet screens.
- Deployed using Netlify.

EDUCATION

B.Tech IT – Mahendra Institute of Technology,Namakkal (2022–2026) CGPA: 9.0
HSC – 87% SSLC – 89%

CERTIFICATIONS

- Honours Diploma in Full Stack Development (HDFD) – CSC Computer Education (P) Ltd | Grade: A | April 2025
- Getting Started with MongoDB Atlas – MongoDB, Inc. | September 2024
