SARAVANABHAVAN S

Java Full Stack Engineer

+91 6383371637 • saravanabhavan.professional@gmail.com • linkedin.com/in/saravanabhavan50-s • github.com/saravanabhavan202

PROFESSIONAL SUMMARY

Java Full Stack Engineer proficient in Java 17, Spring Boot, Spring Security, React.js, and RESTful API architecture. Hands-on experience developing end-to-end full-stack applications, optimizing MySQL database queries, and implementing JUnit unit testing. Skilled in Object-Oriented Programming (OOP), MVC architecture, SDLC, and Agile methodologies. Seeking an entry-level Software Engineer, Java Backend, or Full Stack Engineer role to build high-performance, scalable software solutions.

PROFESSIONAL EXPERIENCE

Java Full Stack Development Intern March 2025 – September 2025
Tap Academy | BTM Layout, Bangalore

- Engineered 8+ end-to-end full-stack features using Spring Boot, Spring MVC, React.js, and MySQL, delivering production-ready modules across 2 major releases.
- Conducted API testing for 15+ REST endpoints using Postman and wrote JUnit test suites, boosting overall code coverage by 25%.
- Collaborated within a 5-member Agile team using GitHub, managing feature branches, pull requests, and peer code reviews to ensure structured releases.

Full Stack Developer Intern June 2024 – August 2024
EI Systems Services | Vaishali, Delhi

- Launched a responsive e-commerce application using Spring Boot, MySQL, HTML5, CSS3, and JavaScript, completing full project delivery within a 3-month timeline.
- Constructed 10+ REST endpoints with full CRUD functionality and multi-parameter search capabilities for admin product management.
- Optimized SQL queries using indexing and efficient multi-table JOINs, reducing average database response time by 30%.

PROJECTS

Sneaker Shopping Platform | Java, Spring Boot, React.js, MySQL | [GitHub Repository] November 2024

- Built a full-stack sneaker shopping platform with Spring Boot and React.js, implementing 10+ REST API endpoints with complete CRUD operations, error handling, and input validation.
- Added multi-filter search by brand, category, size, and price using custom database queries with pagination and sorting for enhanced product discovery.

TamizhVastram E-Commerce Platform | Java 17, Spring Boot, MySQL | [GitHub Repository] June 2024

- Architected a scalable e-commerce backend using Java 17 and Spring Boot with layered architecture (Controller, Service, Repository) for clean, modular, and maintainable code.
- Crafted RESTful APIs supporting full CRUD operations for saree collections and production inventory, enabling efficient admin-level product management.

Automated Student Attendance Monitoring System | IoT, ESP32, GSM, C++, MySQL | [GitHub Repository] June 2025

- Built an IoT-enabled attendance solution integrating ESP32 and fingerprint authentication with MySQL, automating record management for 200+ students.
- Deployed a GSM-based real-time SMS notification system to instantly alert parents, strengthening communication between students and college administration.

TECHNICAL SKILLS

Languages: Java , Python,(Core Java, OOP, Collections Framework, Exception Handling, Multithreading)
Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap
Backend: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, JPA/Hibernate, JDBC, RESTful APIs, JSON
Database: MySQL, Schema Design, Query Optimization, Joins, Indexing, Transactions
Tools and Infrastructure: Git, GitHub, Maven, Postman, Docker (Basic), Linux (Ubuntu), VS Code, Eclipse IDE
Testing & Quality: JUnit (Unit Testing), RESTful API Testing via Postman, Debugging
Concepts: MVC Architecture, REST API Design, Agile Scrum, SDLC, OOP, Layered Architecture, Microservices Concepts

EDUCATION

Vinayaka Missions Kirupananda Variyar Engineering College 2021 – 2025
Bachelor of Engineering in Computer Science and Engineering **CGPA: 8.6 / 10**

Model Higher Secondary School Salem, Tamil Nadu
HSC: 83% (2021) | SSLC: 74% (2019)

CERTIFICATIONS

Certified Java Full Stack Developer | Spring Boot, JSP, JDBC, Servlets *Tap Academy, 2025*
