PROFESSIONAL SUMMARY

Python Developer / Django Backend Developer (Fresher) with strong hands-on experience in developing backend web applications using Django and Django REST Framework. Proficient in building RESTful APIs, implementing authentication and authorization, and handling database-driven backend logic. Experienced in applying Django ORM, CRUD operations, and backend optimization through academic and personal projects. Actively seeking an entry-level Backend Developer or Python Developer role to contribute to scalable and efficient software solutions.

TECHNICAL SKILLS

- Programming Languages: Python, JavaScript
- Backend Frameworks: Django, Django REST Framework
- Frontend Technologies: HTML5, CSS3, Bootstrap
- Databases: MySQL, SQLite, MSSQL
- Tools & Version Control: Git, GitHub
- Concepts: REST APIs, CRUD Operations, ORM, Authentication, Role-Based Access Control

---

PROJECTS

Billing Management System — *Django, Django REST Framework, MySQL*

- Developed a complete backend billing system to manage invoices, payments, customers, and product catalogs.
- Implemented CRUD operations using Django ORM for efficient database handling.
- Built RESTful APIs for billing, payments, and customer management.
- Applied role-based authentication and authorization.
- Designed relational database schema and optimized queries for improved performance.
- Ensured proper validation and error handling across modules.

CERTIFICATIONS

- Python Full Stack Development — Kaashiv Info Tech
- Frontend Development (HTML, CSS, JavaScript) — DP Codes

EDUCATION

Bachelor of Engineering (B.E) – Computer Science Engineering

Mahendra Institute of Engineering and Technology, Namakkal — *2023*

Higher Secondary Certificate (HSC) — *2019*

Government Higher Secondary School, Pannapatty

Secondary School Leaving Certificate (SSLC) — *2017*

Government High School, Sarkkaraichettipatty

ADDITIONAL INFORMATION

- Strong understanding of backend logic and database management
- Familiar with REST API design and best practices
- Actively learning advanced Django and backend optimization
