CAREER OBJECTIVE

To work in an environment that encourages professional growth and success, where I can effectively utilize my skills and knowledge in Python and Data Analytics.

SKILLS

Python, Object-Oriented Programming (OOP), Exception Handling, PyMySQL, SQL, SQL Constraints, Joins, Triggers, Views, Stored Procedures, Power BI, MERN Stack, Data Analytics, File Handling, Modules and Packages

TECHNICAL SKILLS

- Strong in Core Python, OOPs, and Exception Handling
- Knowledge of PyMySQL database connectivity
- Strong understanding of SQL concepts and queries
- Familiar with Modules, Packages, and File Handling
- Knowledge of SQL Constraints
- Knowledge of Joins, Triggers, Views, and Stored Procedures

EDUCATION

Master of Computer Applications (MCA) — Kongu Engineering College (KEC)
| 78.9% | 2026

Bachelor of Science (B.Sc) — Kongu Engineering College (KEC)
| 73.3% | 2024

PROJECTS

Employee Information Management System

- Created and maintained a database-driven system to store employee details using Python and PyMySQL
- Supported operations including insert, update, delete, search, and filtering by department and salary range

Technologies: PyMySQL, Core Python, MySQL Server, VS Code, Python 3.11

College Fee Management Dashboard

- Analyzed student fee collections, pending payments, department performance, and scholarships
- Built interactive visualizations, KPIs, charts, slicers, and filters for effective financial management

Technologies: Power BI, Core Python

OTHER PROJECTS

Mobile Application for Heavy Vehicle Rental Management System

- Designed and developed a mobile app for managing heavy vehicle rentals, including booking, tracking, and customer management

Web Application for Barath Men's Wear

- Developed a full-stack MERN-based e-commerce platform enabling product management, secure payments, order tracking, and customer management

INTERNSHIP

A N Enterprises
| Jan 2026 – Mar 2026

- Completed internship in Full Stack Web Development using an EMR (Electronic Medical Record) system

CONFERENCE / PUBLICATION

- Presented research paper "IoT-based Driver Drowsiness and Monitoring System for Enhanced Road Safety" at the 9th International Conference on I-SMAC 2025, Kirtipur, Nepal (08–10 October 2025), published by IEEE. DOI: 10.1109/I-SMAC65734.2025.11597740

CERTIFICATIONS

- Data Analytics and Core Python — Accord Info Matrix, including training in five AI tools

PERSONAL DETAILS

- Date of Birth: 06-07-2003
- Father's Name: Kannan
- Mother's Name: Selvarani
- Nationality: Indian
- Languages Known: Tamil, English
- Address: 6B, Sunil Apartments, Thiruvalluvar 2nd Middle Street, Officers Colony, Adambakkam, Chennai - 600088
