PROFILE

Aspiring Software Developer with strong skills in Java, Spring Boot, React, and SQL. Experienced in developing RESTful web applications and solving real-world problems through clean, scalable code.

AREAS OF INTEREST

Core Java development, Object-Oriented programming (OOP), Web application development

EDUCATION

Bachelor of Engineering
Computer Science and Engineering
Saranathan College of Engineering
2022 – 2026 | Trichy
CGPA : 8.5 / 10.0

Higher Secondary Education
Sowdaambika Matric Hr.Sec School
2022 | Thottiyam
Percentage : 94.5%

Secondary Education
Sri Kalaimagal Matric Hr.Sec School
2020 | Kulithalai
Percentage: 96.8%

EXPERIENCE

Full Stack Developer Intern
VDart Technologies
Developed and contributed to a full-stack Attendance Management System using Java, Spring Boot, React, and MongoDB, focusing on RESTful API development, database integration, and application functionality.

Java Developer Intern
Cognifyz Technologies
Built Java CLI applications using OOP principles, enhancing modular design and strengthening Java fundamentals and logic skills.

DEVELOPER TOOLS

Git | IntelliJ IDEA | Visual Studio Code | Netbeans | Spring Initializer | Postman | Maven | Github | Docker

LANGUAGES

Tamil | English

SKILLS

Programming Languages
Java | Javascript

Web Technologies
Spring Boot | React | Node.js | JSP | HTML | CSS | JWT | REST API's | Microservices

Database
SQL | MongoDB

Soft Skills
Problem Solving | Communication | Leadership | Time Management

PROJECTS

Legal Aid Platform
SpringBoot | *Microservices* | *PostgresSQL* | *React* | *OCR* | *Python* | *MongoDB*
Developed REST APIs using Spring Boot microservices architecture with secure authentication and authorization. Implemented case tracking, lawyer management, role-based access control, and notification workflows to improve legal assistance accessibility and operational efficiency.

Project Management Platform
SpringBoot | *React* | *MySQL*
Built a project tracking and analytics platform using Spring Boot, React, and MySQL. Implemented modules for project management, employee allocation, task tracking, performance monitoring, and reporting to streamline project operations and resource management.

Attendance Management System
SpringBoot | *React* | *MongoDB*
Developed a full-stack Attendance Management System using Java, Spring Boot, React, and MongoDB, enabling efficient management of users and attendance records through a responsive web interface and RESTful APIs. Integrated Twilio for communication features and implemented validation and exception handling.

CERTIFICATIONS

Programming in Java
NPTEL

DevOps Workshop
Sri Eshwar College of Engineering,
Coimbatore.

UI/UX Workshop
Sri Eshwar College of Engineering,
Coimbatore.
