SUMMARY

Creative and self-driven final-year B.Tech Information Technology student with hands-on experience in building and deploying web applications. Strong interest in learning, problem solving, and turning concepts into practical solutions through projects and internship experience. Quick to adapt to new technologies and eager to contribute as a **Full Stack Developer, Software Developer, or Frontend Developer**.

EXPERIENCE

Codec Technologies Pvt. Ltd. Mar 2026 – Apr 2026

Web Developer Intern Remote

- Worked on **ThinkHub**, gaining practical experience across frontend development, backend development, databases, REST APIs, debugging, and deployment.
- Learned and implemented backend development using **Node.js and Express.js**, including building REST APIs for frontend-backend communication.
- Worked with **MongoDB and Mongoose** for data modeling, CRUD operations, database connectivity, and persistent application data.
- Resolved practical issues involving **CORS, API connectivity, environment configuration, deployment, and client-server integration** through testing and debugging.

EDUCATION

Erode Sengunthar Engineering College 2022 – 2027

B.Tech — Information Technology | *CGPA: **7.83*** Erode, Tamil Nadu

Kathiravan Matriculation Higher Secondary School 2019 – 2022

*HSLC **71.8%*** | *SSLC **74.6%*** Tiruppur, Tamil Nadu

SKILLS

Programming	: Java, JavaScript
Web Development	: HTML5, CSS3, React.js
Backend & APIs	: Node.js, Express.js, REST APIs
Databases	: SQL, MongoDB, Mongoose, Supabase
Cloud	: AWS EC2, AWS S3, AWS IAM
Developer Tools	: Git, GitHub, Postman, Docker, Canva
Deployment	: Render, Netlify, AWS S3 Static Website Hosting

PROJECTS

ThinkHub — Community Blogging Platform | *React.js, Node.js, Express.js, MongoDB, Render* Apr 2026

- Developed a full-stack community blogging platform providing a clean space for readers to explore articles and writers to create, publish, and manage blog posts.
- Built the frontend using **React.js** and **React Router** with interactive views for the main feed, single-post reader, and post creation with form state handling.
- Created **REST APIs** using **Node.js** and **Express.js** handling CRUD operations (`GET, POST, PUT, DELETE`), connected to **MongoDB** via **Mongoose** schemas for structured data storage.
- Deployed frontend and backend as separate services on **Render**, configuring **CORS** and environment variables for smooth client-server communication.
- **Live:** thinkhub-a-community-blog-web.onrender.com **Source:** GitHub

Cinephile — Full-Stack Netflix Clone | *React.js, Vite, Node.js, Express.js, Supabase, PostgreSQL, TMDB API, Render* Jul 2026

- Developed a responsive Netflix-inspired app using **React.js and Vite**, featuring a dynamic hero banner and genre-based movie rows populated in real time via the **TMDB API**.

- Built **RESTful API** routes in **Node.js and Express.js** with **CORS** policies to handle watchlist operations users can save, view, and remove movies from their list.
- Integrated **Supabase** for user authentication and **PostgreSQL** storage to securely manage accounts and persist movie data across sessions.
- Deployed frontend and backend as separate services on **Render**, managing environment variables for API keys and database connections.
- **Live:** netflix-clone-frontend-4dsa.onrender.com/login **Source:** GitHub

Revise-X — Developer Cheatsheet Platform | *React.js, Vite, JavaScript, HTML5, CSS3, Netlify* Aug 2026 – Present

- Developed the frontend of a developer-focused revision platform for organizing technical notes and cheatsheets in a simple and structured interface.
- Built the user interface using **React.js and Vite**, including reusable components, navigation, note layouts, and interactive content views.
- Implemented client-side functionality and responsive layouts using **JavaScript, HTML5, and CSS3** to provide a smooth learning and revision experience.
- **Live:** revise-x.netlify.app **Source:** GitHub

CERTIFICATIONS

MongoDB Overview: Core Concepts and Architecture Apr 2026
MongoDB University
