PROFESSIONAL SUMMARY

Entry-level Data Analyst with project-based training in Excel, SQL, Python, and Power BI, with hands-on experience cleaning, analyzing, and visualizing datasets. Skilled in data collection, data validation, KPI tracking, dashboard development, trend analysis, and communicating clear business insights. Detail-oriented and analytical, with practical experience working across the data analytics workflow.

TECHNICAL SKILLS

Excel:	Pivot Tables, VLOOKUP/XLOOKUP, Conditional Formatting, Charts, Data Cleaning
SQL:	Joins, Subqueries, CTEs, Aggregate Functions, Window Functions, Data Validation
Python:	Pandas, NumPy
Power BI:	Power Query/ETL, DAX, Data Modeling, Interactive Dashboards, Slicers
Tableau:	Basics
Analytics:	Statistical Analysis, KPI Monitoring, Trend & Pattern Identification, Data Cleaning & Validation
Professional:	Analytical Thinking, Problem Solving, Attention to Detail, Communication, Teamwork

PROJECTS

Retail Fresh Produce Waste & Demand Analytics *Python | Power BI | Excel*

- Analyzed retail sales, inventory, and wastage data across stores to identify demand-supply mismatches, spoilage patterns, and stock-out trends.
- Used Pandas and NumPy to clean and merge datasets and analyze demand trends and inventory patterns.
- Built a Power BI dashboard with 15+ DAX measures and KPIs including waste %, stock-out rate, and demand variance, segmented by store and category.
- Delivered data-driven recommendations on reorder timing and stock levels to support inventory decisions.

Blinkit Sales Analytics Dashboard *Power BI*

- Developed an end-to-end Power BI dashboard using 10 relational datasets, performing data cleaning with Power Query and building a Star Schema data model.
- Created 20+ DAX measures and KPIs for sales, customers, products, and operations to support performance analysis.
- Designed 6 interactive dashboards with slicers, drill-through, and dynamic filtering to communicate business insights and recommendations.

TRAINING

Data Analytics Program — SLA Institute Apr 2026 – Present

- Project-based training in SQL, Python, and Power BI covering data collection, cleaning, analysis, visualization, and dashboarding.

CERTIFICATIONS

- IBM Data Analytics Certificate
- Forage — GenAI Powered Data Analytics Job Simulation (Dec 2025)
- Coursera — Introduction to Data Analytics using Microsoft Excel (Mar 2026)

EDUCATION

MCA — Periyar University, Salem 2022 – 2024
BCA — AVS College of Arts and Science 2019 – 2022
