Erode, Tamil Nadu, India

Summary

Motivated and enthusiastic Electronics and Communication Engineering student seeking an entry-level opportunity to apply my technical knowledge, problem-solving abilities, and willingness to learn. Eager to contribute to a dynamic organization while continuously developing my skills in software development, embedded systems, IoT, and emerging technologies.

Core/Technical & Soft Skills

- Basic Electronics
- Analog & Digital Electronics
- Embedded Systems (Basics)
- Internet of Things (IoT)
- Basic Networking
- Python Basics
- Java Basics
- SQL Basics
- Microcontrollers
- Good Communication

Tools and Equipment

Simulation & Analysis : MATLAB, Proteus

PCB Design Software : Ki CAD (Basics)

Embedded Development : Keil, Arduino IDE

Networking : Cisco Packet Tracer (Basics), Wireshark

Education

B.E. – Electronics and Communication Engineering
Velalar College of Engineering and Technology — *2026 | CGPA: 8.54*

Higher Secondary Education (HSC)
Government Girls Model Higher Secondary School — *2022 | 88.6 %*

Academic Project

Enhanced Remote Patient Monitoring Through SDN-Enabled Priority-Aware Traffic Management
(IoT & SDN-Based Healthcare Project)

- Developed a simulation-based system using Software-Defined Networking (SDN) for healthcare data transmission.
- Implemented priority-based data flow to ensure critical patient data is transmitted efficiently.
- Explored IoT-enabled healthcare communication and real-time patient monitoring concepts.

Certifications

Advanced Electronics Manufacturing with Power Electronics — IIT Madras (11 days)

IEEE Conference Paper Presentation and Paper Published — NIT Puducherry & IEEE Xplore
