Career Objective

Aspiring Data Analyst and Data Science enthusiast with skills in Python, SQL, Excel, Power BI, and Machine Learning. Passionate about analyzing data, building predictive models, and transforming complex datasets into meaningful insights. Seeking opportunities to apply data analytics and machine learning skills to solve real-world problems.

Education

Sri Shanmugha College of Engineering and Technology 2023-2027

- **B.Tech - Artiificial Intelligence and Data Science**
- CGPA : 7.7

Technical Skills

- **Programming & Query Languages:** Python, SQL
- **Databases:** MySQL, PostgreSQL
- **Data Visualization & BI Tools:** Power BI, Microsoft Excel
- **Data Analytics & Machine Learning:** Data Preprocessing, Exploratory Data Analysis (EDA), Machine Learning
- **Version Control & Platforms:** Git, GitHub

Experience

DataAnalystIntern | CodeAlpha May 2026

Remote

- Cleaned and analyzed datasets using Python.
- Created dashboards for business insights.
- Performed data validation and preprocessing.

Data Analyst Intern | APM Alpha Pixel Media

Sankari, Tamil Nadu Jan 2026 – Mar 2026

- Analyzed business data and generated reports.
- Conducted data cleaning and transformation.
- Generated actionable insights to support business and marketing activities.

Project

Churn Prediction (Machine Learning Project)

- Performed data cleaning, preprocessing, and exploratory data analysis on customer data.
- Built and trained machine learning classification models to predict customer churn.
- Evaluated model performance and identified customers at high risk of leaving.

Certifications

- Joy of Computing Python - NPTEL
- Data Analytics Masterclass (30 Days) - NoviTech Private Ltd
