SSLC

PROJECT WORK

CAPSTONE PROJECT : BLAST BEAM

As mobile devices become integral to our daily lives, overheating has emerged as a critical concern. Prolonged exposure to elevated temperatures can lead to various issues, including reduced battery lifespan, device malfunctions, and even irreversible hardware damage.This application will continuously monitor battery temperature and alert users through notifications and vibrations if temperatures exceed safe thresholds, enabling timely intervention to prevent damage.

SKILLS

- Python Basics
- SQL Basics
- Multitasking
- Effective communication
- Problem solving
- Team Coordination
- Adaptable & Flexible
- Customer Service & Handling
- Time management

CERTIFICATION

- Nptel - soft skills
- Great Learning - DBMS
- Coursera - IBM in Data Science
