Professional Summary

Java Backend Developer with hands-on experience designing and developing secure RESTful applications using Java, Spring Boot, Spring Security, Spring Data JPA, Hibernate, and JDBC. Skilled in JWT Authentication, OpenAPI (Swagger), MySQL, PostgreSQL, Docker, payment gateway integration, and backend architecture. Seeking a Software Engineer role to build scalable, production-ready backend systems.

Technical Skills

Programming Languages: Java, Python, SQL
Backend: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, JDBC
API Development: RESTful APIs, FastAPI, JWT Authentication, OpenAPI (Swagger)
Backend Concepts: Bean Validation, Global Exception Handling, Machine Learning
Databases: MySQL, PostgreSQL
Developer Tools: Git, GitHub, Maven, Docker, DBeaver, IntelliJ IDEA, Visual Studio Code

Projects

Internet Banking System
github.com/gowtham-152/internet-banking-system

- Developed a secure Internet Banking backend using Spring Boot, Spring Security, and JWT Authentication.
- Built 20+ REST APIs for account management, fund transfers, beneficiaries, transaction history, and user profiles.
- Integrated MySQL, Spring Data JPA, Bean Validation, OpenAPI (Swagger), and Docker for scalable backend development.

Money Manager Backend Application
github.com/gowtham-152/money-manager

- Developed 10+ REST APIs for income, expense, category, dashboard, and reporting modules using Spring Boot.
- Implemented Spring Security, JWT Authentication, and BCrypt encryption for secure user authentication and authorization.
- Integrated MySQL, Spring Data JPA, Bean Validation, and Global Exception Handling to improve API reliability.

Stripe Payment Integration System
github.com/gowtham-152/stripe-payment

- Integrated Stripe Checkout and Webhooks using Spring Boot for secure online payment processing.
- Developed REST APIs for payment creation, payment verification, and order management.
- Stored transaction data in MySQL and implemented validation and centralized exception handling for reliable payment workflows.

Experience

Java Development Intern — Cognifyz Technologies Jul 2025 – Aug 2025

- Developed Java backend applications using OOP, Collections Framework, JDBC, and Exception Handling.
- Built REST APIs integrated with relational databases and optimized SQL queries.
- Applied SOLID principles and gained hands-on Spring Boot backend development experience.

Certifications

- Java Database Connectivity (JDBC) – Java Servlet — Infosys Springboard — Jun 2025
- Java Development Internship — Cognifyz Technologies — Aug 2025
- Python & Java: Master Backend & Frontend Web Developments — Udemy — Nov 2024

Education

Bachelor of Technology in Information Technology 2022–2026
KGISL Institute of Technology, Coimbatore
CGPA: 8.33/10.0
