Data Processor

SUMMARY

Detail-oriented Data Processing professional with hands-on experience in Excel data cleaning, data validation, and data accuracy management. Seeking a Data Processing where I can contribute strong attention to detail and data quality skills.

EXPERIENCE

Exela Technologies Pvt Ltd., Salem, Tamil Nadu | Jan 2021 – Dec 2024

Data Processor (Healthcare Domain)

- Processed and validated healthcare claim data while meeting daily productivity targets and SLAs.
- Performed data cleaning, verification, and quality checks to ensure data accuracy.
- Used Excel (VLOOKUP, XLOOKUP, IF, IFERROR, Pivot Tables, Data Validation) to validate and maintain business records.
- Maintained accurate documentation and ensured compliance with client requirements.

Quality Auditor (Healthcare Domain)

- Audited healthcare claim data against source documents to ensure accuracy and quality compliance.
- Verified CPT codes, diagnosis data, and reconciled subtotals.
- Identified discrepancies, provided feedback, and ensured adherence to quality standards and productivity targets.

Reporting & Team Performance Tracking

- Prepared daily productivity reports.
- Tracked employee-wise status
- Maintained batch allocation and assignment reports.
- Monitored team-wise workload and completion status using Excel.

EDUCATION

- **Bachelor of Mathematics**
  Government Arts College of Salem-7 (Autonomous) | Jun 2018 – May 2020

PROJECT

Apple Retail Sales & Performance Report | Power BI, Power Query

- Cleaned and transformed retail sales, product, store, and warranty data using Power Query.
- Developed an interactive Power BI dashboard with KPI cards, slicers, and visualizations to analyse sales performance, revenue, products, and store trends.
- Created data relationships and analytical measures to generate business insights and support performance monitoring.

Flipkart Sales Dashboard | Excel, Power Query, Pivot Tables

- Processed and analysed **80,000+ sales records** to evaluate revenue, sales performance, stock availability, and product trends.
- Cleaned and transformed raw sales data using Power Query and created Pivot Tables for detailed business analysis.

- Built an interactive Excel dashboard with KPIs, slicers, and charts to monitor sales trends and identify key business insights.
